8. Problems (oral or written) including some on Shubhankari's Rules.

(*b*) GEOMETRY.

Class VII.

Problems.

Bisection of angles, and straight lines.
Construction of perpendiculars to straight lines.
Construction of an angle equal to a given angle.
Construction of parallels to a given straight line.

Theorems.

If two sides of a triangle are unequal the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or
(2) a pair of corresponding angles are equal, or
(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Class VIII.

Problems.

Division of straight lines into any number of equal parts.
Construction of triangles and quadrilaterals with sufficient data.
Construction of a triangle equal in area to a given quadrilateral.

Theorems.

The sum of the angles of a triangle is equal to two right angles; and the two corollaries thereto.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal and one other side of the one equal to one other side of the other, the triangles are congruent.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram; and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

STATEMENT OF OBJECTS AND REASONS.

The low standard of wages prevailing in Bengal and the existence of sweated rates of wages are factors which militate against the prosperity of the Province and the happiness, well-being and health of the working classes. It is the duty of the State to guarantee a minimum living wage to the workers who produce its wealth and who are unable to obtain it owing to their lack of organization, their poverty and their consequent weakness as against powerful and well-organised employing interests. It is in such conditions that the existence of a Minimum Wages Act becomes an absolute necessity not only in the interest of the working class but equally in the national interests.

NOTIFICATION.

No. 4615L.A.—11th November, 1937.—In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 15th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL MEDICAL (AMENDMENT) BILL, 1937.

A

BILL

further to amend the Bengal Medical Act VI, 1914.

WHEREAS it is expedient further to amend the Bengal Medical Act, 1914, for the purposes hereinafter appearing; Ben. Act VI of 1914.

AND WHEREAS the previous sanction of the Governor under sub-section (*1*) of section 119 of the Government of India Act, 1935, has been obtained to the passing of this Act; 26 Geo. V., c. 2.

It is hereby enacted as follows :—

PRELIMINARY.

Short title, extent and commencement.

1. (*a*) This Act shall be called the Bengal Medical (Amendment) Act, 1937.

(*b*) It shall extend to the whole of Bengal.

(*c*) It shall come into force immediately.

Amendment of section 17.

2. (*i*) In section 17 insert the following as the first proviso, viz. :—

(*1*) Provided that the Governor in Council of Ministers may, after consulting the Medical Council, permit the registration of :—

(*a*) any person who has undergone a full course of training in any medical college or school and has obtained a certificate to that effect from the head of such college or school and who was practising as a medical practitioner on the date when the Act came into force; and

(*b*) any person who has obtained proper training in any medical institution and joined the medical profession before the 5th September, 1937, provided that he passes a special examination such as the Medical Council may hold for the purpose of granting registration.

(*ii*) In the existing proviso to section 17, insert the word "also" between the word "Provided" and the words "that the Council may."

STATEMENT OF OBJECTS AND REASONS.

From some time past it has been felt that the provisions of the Bengal Medical Act, 1914, are causing much hardship to a large number of persons who, though properly trained and possessed of degrees, diplomas, certificates, etc., from sources other than those recognised by the authorities and though they had been actually practising Medicine, Surgery and Midwifery from before 1914, cannot get themselves registered and thus become qualified medical practitioners. Practitioners with similar qualification in other provinces, viz., Bombay, the Punjab, the United Provinces, Burma, etc., have been given the privilege of registration long ago, either by amendments of the Acts of the respective provinces or by Government notification. In Bengal nothing in this direction has been done up-to-date. These practitioners of Bengal have therefore formed themselves into a corporate body under the name and style of the Bengal Medical Union and have been making representations which should not be altogether ignored. The redress sought for may be given by a simple amendment of the Bengal Medical Act, and it is the object of the present Bill to make this amendment.

The Bengal Medical Act, 1914, in seeking to give protection to the public against quacks, omitted to make provision for the safety of those doctors who had obtained diplomas and certificates from various well-organised and efficient medical institutions before the passing of the Act, who had been practising with ability and reputation for a long time and who could by no stretch of language be called quacks. Yet, in the result, these able, experienced and well-reputed doctors have been classed among the quacks. Many of them have been thrown out of employ from hospitals, tea gardens, ships, steamers, etc., debarred from granting certificates of birth or of illness, and handicapped in many other ways. Their difficulties increased when the Poison Act (Act XII of 1919) came into force and prohibited them from procuring for their patients the requisite drugs included in the schedule of poisons. The transitory provision by Government for an examination of these doctors by the State Medical Faculty was in force only for two years from the passing of the Bengal Medical Act, 1914. The time was too short for the majority to avail themselves of the concession, and moreover a good many did not even get the necessary information within the period. Such people are now on the brink of starvation. Many of them have outgrown the age at which a change of avocation is possible, and, for obvious reasons, a fresh examination also is out of the question The proposed proviso (*1*) (*a*) of the Bill is intended to meet the cause of these people.

The case of those who have obtained proper training in unrecognised medical institutions since 1914 stands on a similar footing. Several unregistered doctors, who had received their training in such institutions, are now serving in tea gardens, coal mines, etc.; and they have been highly spoken of by their superior Medical Officers, both Indian and European. Some of these unrecognised institutions have since been recognised; but the students, who completed their course of education therein and began to practise before such recognition, have been left in the lurch. We therefore find good doctors trained at the same institutions, one set of whom—the older and more experienced set—are unqualified for want of registration, while another set are qualified by registration. Under these circumstances it is but fair and equitable that such students should be given at least one chance of being qualified. Hence the necessity for proviso (*1*) (*b*).

No. 4616L.A.—11th November, 1937.—In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL LAND-REVENUE SALES (AMENDMENT) BILL, 1937.

A

BILL

further to amend the Bengal Land-Revenue Sales Act, 1859.

WHEREAS it is expedient further to amend the Bengal Land-Revenue Sales Act, 1859, in the manner hereinafter given; Act II of 1859.

It is hereby enacted as follows :—

This Act may be called the Bengal Land-Revenue Sales (Amendment) Act, 1937.

It extends to the whole of Bengal.

After section 37 of the Act the following sections shall be inserted as sections 37A, 37B, 37C :—

37A. Where any estate or share of an estate has been sold under this Act, any person either owning such property or holding an interest therein by virtue of a title acquired before such sale or whose interests are affected by the sale may, at any time within thirty days from the date of the sale, apply to have the sale set aside on his depositing with the Collector of the district—

(*a*) for payment to the purchaser a sum equal to five *per cent.* of the purchase money; and

(*b*) for payment to the purchaser a sum equal to the amount he has paid for his purchase, and for payment to the Collector a sum equal to the amount of the balance, if any, due on account of arrears of the revenue for which the property was sold together with a sum equal to one *per cent.* of the purchase money to be paid to the Government for expenses of the sale.

37B. (*1*) Where the deposit required by section 37A is made within thirty days from the date of the sale, the Collector shall make an order setting aside the sale, provided that no order shall be made unless the notice of the application has been given to all persons affected thereby.

(*2*) No suit to set aside an order made under this section shall be brought by any person against whom such order is made.

37C. (*1*) Where the sale has been set aside at the instance of, and on the deposit by, a person other than the defaulting proprietor or proprietors, the amount paid for such setting aside of the sale, shall be deemed to be a debt bearing interest at six *per cent. per annum* and secured by a mortgage of the estate sold in favour of the said person.

(*2*) His mortgage shall take priority over other charges on the said estate other than a charge for arrears of revenue.

(*3*) He shall be entitled to the possession of the said estate as mortgagee of the defaulting proprietor or proprietors and to retain possession of it as such until the said debt with interest thereon has been discharged.

Nothing in this section shall affect any other remedy to which any such person would be entitled.

STATEMENT OF OBJECTS AND REASONS.

According to the Civil Procedure Code, every sale can be set aside at the instance of the person affected by the sale on his depositing the amount due from him within a certain period thus giving an opportunity to recover the property without causing any consequential loss to anybody. The same principle has been extended by a recent amendment of the Bengal Patni Taluks Regulation, 1819. It is, therefore, proposed that some such relief should be given to the defaulting proprietors who have, through unforeseen circumstances, been unable to save their properties by timely deposit of their dues. At the same time, the Bill proposes to give relief to a genuinely aggrieved class of people whose interests are all destroyed by a sale under the Revenue-Sale Law and who can rarely find opportunity to save their interests in time by payment of the revenue before the last date of payment. The Bill further provides a better method of realisation of the balance of the arrears of the revenue when an estate is sold below the revenue demand and the sale is set aside in accordance with the provisions of this Act.

Repeal of section 31.

5. Section 31 of the said Act shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

1. It is agreed by all that the agriculturists of Bengal who form 90 per cent. of the population of rural area should be given substantial relief of their heavy and over-burdened indebtedness to save them as a class from ruin for the sake of the greater interests of all classes of the people of Bengal as a whole. Besides the previous usual exorbitant high rate of interest supported by the then existing law, the sudden unexpected and unusual fall in the price of agricultural crops upon which the agriculturists of Bengal mainly depend, has made their pecuniary condition awfully miserable, owing to the world-wide economic depression prevailing since the year 1930 and as a result of which the paying capacity of the agriculturists has been totally lost. On account of this acute economic distress prevailing all over Bengal specially affecting the jute-growing districts most of the agriculturists had to be struggling for only meeting the expenses of bare daily necessaries of life to maintain their families. In the circumstances it cannot be expected of all of them that they should have duly made payment of that dues to their creditors and in that case they cannot be held responsible for their unwillingness to do so. The Government of Bengal also in realising the serious nature of the distress at that critical time came forward to save the producers of national wealth and helped them with supplying agricultural loans in the year 1932. And in the meantime during the last few years of economic depression since 1930 landed properties of many agricultural debtors have been sold and purchased at the sale by many decree-holders in execution of their decrees in civil courts for such a small amount which is very trifling in consideration of the real value of those properties in normal time. The poor debtors had to allow it as there was then no help. While decree-holders have gone step further. Taking undue advantage of the helplessness of the judgment-debtors and knowing full well their incapacity to pay, most of the creditors have utilised this opportunity in favour of their selfish ends, in taking delivery of symbolical possession of their landed properties including the homesteads of many debtors through the help of the civil courts, though of course, most of these cases have failed in actually satisfying their claims as the lands concerned are practically in the direct possession of debtors as it was before and over which disputes still exist It should not be understood that the debtors are to be given indulgence to deprive the creditors of their legitimate claims in no case whatsoever which are reasonable and just. But it cannot be supported that this sort of debt-dispute over the possession of immovable properties of debtors including their homesteads should be allowed to continue further to embitter the feelings between the creditors and debtors and thereby threaten to disturb the peace of rural Bengal. This aspect of the present debt-problem should not be neglected for the vital interests of poor agricultural debtors unless most of them are intended to be turned into day-labourers and driven out from their ancestral homes to the mercy of God. Debt Settlement Boards worth existence to settle amicably these sorts of disputes over possession of lands arising out of debts of the nature.

In order that the Debt Settlement Boards may take up these disputed cases for amicable settlement between the parties concerned, provision should be made in the Bengal Agricultural Debtors Act, 1935, to give a retrospective effect of the Act from 1930.

2. Most of the agricultural debtors are at present also heavily indebted to Co-operative Societies and other Banks. It will practically serve no useful purpose by only settling and for that purpose scaling down the liabilities to individual creditors if no favourable settlement and adjustment is possible with regard to their other liabilities to Co-operative Societies and Banks. For this reason the definition of "debt" should also include such liabilities and the Act should be so amended.

STATEMENT OF OBJECTS AND REASONS.

The purpose of the Bill is to do away with nomination in local bodies and also to extend the franchise to include all adult persons within the area under the control of a local body.

The reasons for such amendment are obvious. One of the purposes of local self-government is to associate the people in the administration of their own affairs and thus train them in methods of Government. Nomination cuts across the principle of representation, and the system as it now obtains, leads to the anomalous position in which a person in spite of the opposition of the majority of elected members in the local body may be, and often is, elected Chairman of the district board or President of union board, with the help of the nominated members. This encourages ambitious and designing persons to court the favour of local officials in order to secure their position, instead of attempting to win the confidence of their electorate through useful and hard work.

With regard to the extension of franchise, it is generally admitted that the representation should be as wide as possible. All kinds of arguments are advanced against such extension in the case of the legislatures, but even these arguments concede that the franchise *ought to* be co-extensive with the adult population of the country. In the case of the local bodies, these arguments have hardly any force, and besides, local bodies should be treated as the training ground in which people learn to prepare themselves for the use of the franchise in the wider sphere of national affairs.

It is hereby enacted as follows:—

1. This Act may be called the Bengal Shop Controlling Act, 1937.

2. In this Act, unless there is anything repugnant in the subject or context, "Shop" means all shops paying trade license tax excepting those that come within Factory Act.

5. If any shop carries on transaction after 8 p.m. it will have to pay a fine of Rs. 5.

STATEMENT OF OBJECTS AND REASONS.

WHEREAS it is expedient to amend the Bengal (Rural) Primary Education Act, 1930 ; Ben. Act VII of 1930.

STATEMENT OF OBJECTS AND REASONS.

THE HOURS OF WORK BILL, 1937.

A

BILL

to make provision for hours of work.

1. This Act may be called the Hours of Work Act.

2. In all factories, establishments and mines governed by the Indian Factories Act or by the Indian Mines Act, the maximum number of hours of work for employees shall be forty per week, provided that the provisions contained in these Acts regarding overtime and all incidental matters pertaining thereto, shall be valid as heretofore. XXV of 1934. IV of 1923.

3. No employer shall pay less than the wages paid as on the 1st of May, 1937, to any worker governed by Indian Factories Act or the Indian Mines Act whose hours of work, henceforth as a result of the passing of this Act, shall be reduced to forty per week.

4. Breaches of the provisions of this Act shall be tried summarily on complaint lodged by a workman or any persons on his behalf and punished with a fine which may extend to fifty rupees for each such breach.

STATEMENT OF OBJECTS AND REASONS.

The problem of unemployment has assumed serious proportion and calls for drastic remedies. In European countries and in America it has been found that a reduction of the hours of work has resulted in increased employment almost with mathematical certainty. Experts have held that in hot climates it is necessary to safeguard the health of workers by providing shorter hours of work. Therefore, both from the point of view of health and the urgent necessity of finding more employment it has become imperative to reduce the limit of work in factories and mines to forty hours per week.

"6A. All properties taken under the charge of the Court, excepting of those described under clauses (*a*), (*b*), (*c*) and (*d*) of section 6 of the Act, shall subject to its other provisions be released from the Court's charge immediately after this Act comes into force.

6B. A disqualified proprietor under this Act shall also be disqualified from being appointed or elected as, and from being a member of a Local body.

6. The proviso to section 7 of the Act shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The original intention of passing of the Act, so far as it can be gathered, was to give protection to those who really needed it. But now it has practically become a fashion to call oneself as disqualified proprietor. So it is time to put a stop to the taking charge of anybody's property who may desire to shift the burden of managing his private property to the Government. By so doing a good deal of Government energy that is practically being spent for the benefit of certain individuals can be released and utilised for public good.

11. In section 78 of the Act insert the word "exclusively" between the words "Bengal" and "by" in the 4th line of 2nd paragraph (section 23A).

STATEMENT OF OBJECTS AND REASONS.

The Wakf Act of 1934 is defective in many ways. There are several ambiguities and omissions which make its provisions ineffective and infructuous. Some of the powers now given to the Board of Wakfs and the Commissioner of Wakfs which heretofore used to be exercised by the Civil Courts, have not been withdrawn specifically from the latter, and this leads to conflict of jurisdiction.

For the proper administration of wakfs it is necessary to invest the Board of Wakfs with more powers particularly with regard to financing and management of wakf properties and their protection from sale.

It is also necessary to simplify the trial of wakf suits between interested persons and arrange for their expeditious disposal.

Although it was intended that the Board should effectively control the management and administration of wakfs particularly those in which no mutawalli is functioning, the Act does not clearly define such powers. Particularly in cases where receivers are in possession having been appointed by courts it has been found difficult to bring them under control.

The present amending Bill aims at the solution of these difficulties.

A

BILL

further to amend the Bengal Medical Act, 1914.

Preamble.

WHEREAS it is expedient further to amend the Bengal Medical Act, 1914, for the purpose hereinafter appearing; Ben. Act VI of 1914.

AND WHEREAS the previous sanction of the Governor has been obtained under sub-section (*1*) of section 119 of the Government of India Act, 1935, to the passing of this Act; 26 Geo. V, c. 2.

It is enacted as follows -

Short title, extent and commencement.

1. (*i*) This Act may be called the Bengal Medical (Amendment) Act, 1937.

(*ii*) It extends to the whole of Bengal.

(*iii*) It shall come into force on the day on which it is published in the *Calcutta Gazette* after having received the assent of the Governor.

2. (*i*) After section 17 add the following proviso :—

Provided that the Local Government may, after consulting the Council, permit registration of—

Any person who shall, within three years of the passing of the Bengal Medical (Amendment) Act, 1937, furnish to the Registrar proof that he obtained proper training in any medical school recognised by the Local Government prior to such recognition and joined the medical profession before the coming into operation of the Bengal Medical (Amendment) Act, 1937.

(*ii*) In proviso to section 17 between the word "provided" and the words "that the Council" the word "further" shall be added.

STATEMENT OF OBJECTS AND REASONS.

Clause 3 of the schedule of the Bengal Medical Act, 1914, grants to persons who have been trained in a medical school in India not maintained but recognised by the Local Government for the purposes of the said schedule and hold a diploma or certificate granted by such school the right to get himself registered as a medical practitioner under section 17 of the Act. But the Act does not allow any such right to persons who have obtained such training and diploma or certificate from the school prior to such recognition by the Local Government. Most of the Medical Acts of other provinces of India and England have allowed recognition to such persons and made necessary arrangements therefor from time to time Moreover the coming into operation of the Indian Medical Council Act, 1933, has put further restrictions upon their practice. The object of this Bill therefore is to give those persons who received their training in and obtained diplomas and certificates from medical schools recognised by the Local Government prior to such recognition an opportunity of getting themselves registered under the Bengal Medical Act, 1914, within three years.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1937.

A

BILL

further to amend the Court of Wards Act, 1879.

WHEREAS it is expedient to amend the Court of Wards Act, 1879;

It be enacted as follows :—

Short title.

1. This Act may be called the Bengal Court of Wards (Amendment) Act, 1937.

Amendment and partial repeal of section 10C of Bengal Act IX of 1879

2. In section 10C of the Court of Wards Act, 1879 (as amended by the Bengal Court of Wards Amendment Act, 1925)—

(1) in sub-section (1) —

(a) after the word "Ward" the following be inserted :—

"in respect of any liability incurred by the ward prior to assumption of charge of the property by the Court of Wards",

(b) for the word "four" the word "two" be substituted, and

(c) the words "and for seven years thereafter if the interest due under such decree or order be paid in full every year during the said seven years" be repealed.

(2) after sub-section (2) the following be inserted :—

"Provided that nothing in this sub-section shall in any way affect or limit the provisions contained in Regulation VIII of 1819."

Amendment to section 20 of Bengal Act IX of 1879.

3. In section 20 of the said Act, after the word "appointed" the following be inserted :—

"Provided it shall not be lawful for the Court to appoint as manager the ward or any member of the ward's family".

STATEMENT OF OBJECTS AND REASONS.

The Court of Wards Act, 1879, was amended in the year 1906, when sections 10A to 10E were added after section 10 of the original Act. Section 10C provided that if any process of execution had been issued by a Civil Court against the immovable property of a ward, or against the rents or crops thereon, the Court of Wards within one year after assumption of charge of the property, might apply to the Civil Court to stay the proceedings; and the Civil Court might, on such terms regarding interest or compensation for delay as might appear to it to be just and reasonable, stay such proceedings for such period as it might deem fit.

The amendment of section 10C of the Act effected in the year 1935 has altogether taken away the power of the Civil Court to execute any decree or order against any property of the ward for a period of four years from the date of the said amendment or from the date of the assumption of charge of the property by the Court of Wards, whichever is later. It has also provided that for a further period of seven years after the said period of four years, such execution will be barred if the interest due under such decree or order be paid in full every year during the said seven years.

The aforesaid amendment, while giving undue advantage to the property of disqualified proprietors, has resulted in great hardship to their creditors for which there does not appear to be any justification.

It is proposed in this amending Bill that the Court of Wards may be allowed a period of two years instead of four to adjust the affairs of the ward without being troubled by execution of any prior decree or order, after which the discretion of the Civil Court should be allowed to be exercised.

It is also proposed that this exemption for two years should be enjoyed by the Court of Wards only in respect of those liabilities which had already been incurred by the ward and not those which the Court of Wards itself incurs after the assumption of charge.

Sub-section (2) of section 10C of the Act contains a provision which also was enacted for the first time by the Amending Act of 1935. It has been designed to protect *inter alia* the *patni* tenures of disqualified proprietors on default of payment of *patni* rent by protecting them from the Patni Sale Law. There has, however, been no corresponding protection extended to the superior landlord, who, while he is being deprived of his *patni* rent for no fault of his own, has got to meet the revenue demand of the Government at the risk of the superior estate being sold away, while the defaultang *patni* enjoys immunity. In this amending Bill, it is proposed to add a proviso after sub-section (2) of section 10C, which will remedy this inequity by making the Patni Sale Law applicable as before to the defaulting *patni* tenures of disqualified proprietors.

The only other amendment proposed in this Bill is to section 20 of the Act, which provides for the appointment of managers under the Court of Wards. Disqualified proprietors or the members of their families are sometimes appointed managers although their failure to manage their property has resulted in the Court of Wards assuming charge. This is objectionable in principle, and the amendment seeks to prevent this practice.

8. The rate of interest on arrear rent of fisheries shall be 12½ *per cent per annum* if not paid at the end of the year and no damage shall be awarded for non-payment of rent in time

STATEMENT OF OBJECTS AND REASONS.

The raiyats of Bengal have got some relief by the Bengal Tenancy Act amended in 1928. Their remaining disadvantages are going to be remedied to a very large extent by further legislations. But the hardships, disabilities and tyranny to which the fishermen of Bengal are subjected have not yet succeeded to strike the sympathetic chord of the legislators of Bengal. The raiyats of Bengal are extremely poor, but the fishermen are still poorer.

"The actual catchers and carriers are not so well off as the middle man. The income of an ordinary fish catcher working with parties or by himself varies from Rs. 4 to Rs. 12 a month."

"The Fisheries of Bengal" (page No. 13), Sir K. G. Gupta.

"As an illustration of the exactions which are otherwise levied from fishermen, it may be mentioned that on enquiry made a few years ago into some of the river fisheries in Bengal it was found that in a particular river fishery out of total catches valued at Rs. 80,000, Rs. 1,000 went to the landlord, Rs. 20,000 to the actual fishermen and the remainder to the middle men."

"Annual Report on the Working of Co-operative Societies in the Presidency of Bengal for the year 1925-26" (page No. 18).

The matter has not improved a bit since the reports were written. Generally the main grievance of the fishermen is not against the actual rents to the proprietors but to extra impositions and levies as well as the arrangements by which they are forced to sell their catches to certain people or agencies These restrictions tell heavily upon the poor fishermen who cannot sell to the highest bidders. In many places non-fishermen take lease of fisheries and screw out as much as they can from the helpless fishermen.

The present Bill attempts at the removal of most of the grievances and disabilities of the fishermen, who for the sake of their earnings have to live the most uncertain and risky lives.

Rai Sarat Chandra Bal Bahadur introduced a Bill last year in Bengal Legislative Council which was held back for circulation. The present Bill has been drafted on the model of the Bill introduced by Rai Sarat Chandra Bal Bahadur, with certain modifications and reservations as have been thought necessary in the light of criticisms offered on the Bill

Extent and commencement.

(*ii*) It extends to the whole of Bengal.

(*iii*) It shall come into force on the day on which it is published in the *Calcutta Gazette* after having received the assent of the Governor.

2. (*i*) After section 17 add the following proviso :—

Provided that the Local Government may, after consulting the Council, permit registration of—

(*a*) any person who shall furnish to the Registrar proof that he is possessed of a medical degree, diploma or certificate of any University, Medical College or School approved by the Council other than those described in the Schedule and is such as was actually practising the western (modern scientific system of Allopathic) medicine before 27th May, 1914,

(*b*) any person who shall furnish to the Registrar proof that he has obtained proper training in any medical institution approved by the Council and has joined medical profession before the enforcement of the Bengal Medical (Amendment) Act, 1937, provided that he passes a special examination such as the Council may hold for the purpose of granting registration.

(*ii*) In proviso to section 17 between the word "provided" and the words "that the Council" the word "further" shall be added.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Medical Act (Act VI of 1914) was passed in 1914. But unlike similar Acts in the Punjab, the United Provinces, Burma, Bombay and even in England it did not provide for the permanent relief of the then medical practitioners actually practising in the province. In lieu of this the Government of Bengal only provided temporarily for a limited number of trained men to obtain the registrable qualifications by passing examination This transitory provision is, however, quite inadequate. Many of the medical practitioners, who lived abroad at that time or who remained in the remotest corners of the interior villages and were not aware of the privilege, had been left out. These unregistered practitioners are not now deemed qualified and are not even considered fit to certify their patients' illness or to procure requisite medicines for their patients. Thus the present All-India Medical Mission have come into existence. It was through their efforts that legislation on the subject was tried several times without success. It is now time to consider the matter afresh and some permanent relief is to be given to these poor medical practitioners.

The Medical Act (Act VI of 1914), while restricting the registration of medical practitioners did not restrict the establishment of private medical institutions. Some of these unrecognised institutions have since been recognised. But the students who completed their course of education therein and began to practise before such recognition have been left in the lurch. Therefore it is found that there are two sets of good doctors trained at the same institutions, one set of whom are unqualified for want of registration, while another set are qualified by registration. It is but fair and equitable that such students should be given another opportunity of being qualified.

Other medical institutions still unrecognised are producing medical practitioners. In order to qualify them they should also be given a chance to appear in another Licentiateship examination similar to that of 1916.

It is to do away with the disabilities of these medical practitioners and to enable them to get their names entered in the "Register of Registered Practitioners" that this amendment to the Bengal Medical Act (Act VI of 1914) is required.

Legislative Department.

NOTIFICATION.

No. 3101L.—11th November, 1937.—The Governor having been pleased to order, under rule 19 of the Bengal Legislative Assembly Rules, as modified and adapted under section 84 (3) of the Government of India Act, 1935, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information:—

THE BENGAL RHINOCEROS PRESERVATION (AMENDMENT) BILL 1937.

A BILL

to amend the Bengal Rhinoceros Preservation Act, 1932.

WHEREAS it is expedient to amend the Bengal Rhinoceros Preservation Act, 1932, in the manner hereinafter appearing; Ben Act VIII of 1932.

It is hereby enacted as follows.—

Short title.

1. This Act may be called the Bengal Rhinoceros Preservation (Amendment) Act, 1937.

Amendment of section 4 of Bengal Act VIII of 1932.

2. In section 4 of the Bengal Rhinoceros Preservation Act, 1932 (hereinafter referred to as the said Act) after the word "captured" the words "in Bengal" shall be inserted.

Insertion of new sections 4A and 4B.

3. After section 4 of the said Act the following sections shall be inserted, namely:—

Possessing, selling or buying of any part of rhinoceros prohibited.

"4A. No person shall without the permission of the Provincial Government possess, sell or buy, or offer to sell or buy, any part of a rhinoceros unless he has reason to believe that such rhinoceros is not the property of the Provincial Government.

Explanation.—The expression 'reason to believe' occurring in this section has the meaning assigned to it in section 26 of the Indian Penal Code. Act XLV of 1860.

Penalty for contravening section 4A.

4B. (1) Whoever in contravention of section 4A possesses, sells or buys, or offers to sell or buy, any part of a rhinoceros, shall be punished with fine which may extend to one thousand rupees.

(2) Whoever having been convicted of an offence under sub-section (1) of this section is again convicted of an offence thereunder shall be punished with fine which may extend to two thousand rupees."

STATEMENT OF OBJECTS AND REASONS.

Section 4 of the Bengal Rhinoceros Preservation Act, 1932 (Bengal Act VIII of 1932), provides that all parts of a rhinoceros killed or captured otherwise than with the permission of Government are the property of Government. But no provision exists in the Act to make the possession of the body of a rhinoceros or any part of it, such as the horns, illegal though Government may claim it. The object of this Bill is to make express provision in the law prohibiting possession or sale of a rhino-horn or any part of a rhinoceros in Bengal without the permission of the Provincial Government and to provide adequate penalties for the purpose in order to prevent the extinction of the animal.

P. D. RAIKUT,
Member-in-charge.

NOTIFICATION.

No. 23-I.—8th October 1937.—It is hereby notified for general information that in exercise of the powers conferred by sections 6 and 11 of the Bengal Canals Act of 1864 (Bengal Act 5 of 1864), the Governor intends to make the following rules and to fix the following schedule of rates of tolls for the Bauphal-Dwipasa Khal joining the Boga Khal on the west and the Bauphal Khal on the east in the Patuakhali subdivision of the Bakarganj district.

2. The draft will be taken into consideration on or after the 2nd December 1937, and any objections or suggestions received before that date will be considered:—

Rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which

must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds	Eight annas.
(2) On all vessels empty or laden, for 12½ maunds or less	One anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth ...	Four annas each raft.

Tolls will be levied at Dwipasa and Bauphal.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remian in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Department of Communications and Works (Irrigation) on duty, officers and servants of the toll office [illegible] canal referred to in these rules while on duty, or the vessels [illegible] other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

"provided that the members constituting the board at the time of supersession shall not be eligible at the time of election for the establishment of the board."

STATEMENT OF OBJECTS AND REASONS.

The purpose of this amendment is to do away with the nomination to all local bodies and to extend the franchise in such bodies to include all persons who have attained their majority.

The practice of nomination has rendered local self-government a nullity particularly in the rural areas. Because a person can, with the assistance of the nominated members, become the Chairman of the district or local board or a President of union board against the wishes of majority of the electors. This often leads ambitious and designing persons to seek favours of the authorities rather than the support of the electors through meritorious services.

With regard to the franchise it is generally admitted that the wider the basis of representations, the more successful and satisfactory the administration. The reasons for limiting the franchise in the case of the legislation do not hold good in the case of local bodies, and it is imperative for the growth of civic and political consciousness among the masses that there should be adult franchise in local bodies to train them up in the standards of public life and citizenship.

No. 4756L.A.—20th November, 1937.—In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE ADIGANGA IMPROVEMENT BILL, 1937.

A

BILL

to provide for improvement of both banks of the Adiganga.

WHEREAS it is expedient to make provision for the improvement of both banks of the Adiganga;

It is hereby enacted as follows:—

1. This Act may be called the Adiganga Improvement Act, 1937.

2. Both banks of the Adiganga beginning from its junction at Kidderpore up to Garia Railway Bridge shall be improved by the Trustees for the improvement of Calcutta, dredging the channel, draining off the stagnant water and constructing metalled roads on both banks.

3. The Local Government shall have power to prevent the pollution of water by the discharge of foul water from mills situated on the banks, of the sewage and storm water from municipal drains, and also to prevent other sources of pollution, in accordance with rules to be framed for this purpose from time to time.

4. The cost of the improvement and maintenance of the works shall be levied from the Calcutta Corporation and District Board of 24-Parganas to such extent as may be fixed by the Local Government under the rules to be framed.

5. To meet part of the cost of improvement and maintenance of the works, the Provincial Government may impose a terminal tax on pilgrims visiting the Kalighat temple on special occasions and additional rates on owners or occupiers of holdings abutting on the roads constructed along the banks.

STATEMENT OF OBJECTS AND REASONS.

The Adiganga which is the old channel of the sacred Bhagirathi (Ganges) is in a deplorable condition and both sides are full of slum quarters, ditches and jungle leading to the pollution of the water and making the locality unhealthy and unsightly.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1937.

A

BILL

further to amend the Court of Wards Act, 1879.

WHEREAS it is expedient further to amend the Court of Wards Act, 1879, in the manner hereinafter appearing; Ben. Act IX of 1879.

It is hereby enacted as follows:—

1. This Act may be called the Bengal Court of Wards (Amendment) Act, 1937.

2. It shall come into force on such date as the Local Government may, by a notification in the *Calcutta Gazette*, appoint in this behalf.

3. Clause (*e*) of section 6 of the Court of Wards Act, 1879 (hereinafter referred to as the said Act), be deleted.

4. The present proviso to section 7 of the Act be omitted and in its place the following be substituted:—

"Provided that as soon as any heir of the disqualified proprietor or any co-sharer ward becomes major and not otherwise disqualified, the Court shall release the estate to him."

5. Section 11 of the said Act be repealed.

6. Section 12 of the said Act be repealed.

7. In section 22 of the said Act the words "(if any) with regard to the rank and circumstances of the parties" be substituted by the words "keeping in view the limitation of expenditure, liabilities and income of the estate."

8. The wordings of the section 63 of the said Act be substituted by the following: "Notwithstanding anything contained in any law 'rent' shall not be treated as a subject of public demand even when the person demanding rent is [illegible] of [illegible]ards or any employee under the same."

STATEMENT OF OBJECTS AND REASONS.

The idea of Court of Wards was in the beginning to manage the estate of the minor or female or physically unfit proprietors of land with a view to keep the arrangement made by the Permanent Settlement intact and collection of revenue of the State unaffected. Now the position has been that when any proprietor applies to the Government for managing his estate, the Government, if they do not find any objection, generally take over the management of his estate, save it by clearing the debts, and give relief to the proprietor (however able he might be of the management of his estate) at the cost of the tenants. This uncalled for help of the Government to the proprietors has encouraged them to be extravagant and careless.

The gross rental collected from the raiyats amounts to nearly Rs. 17 crores, while the land revenue of Bengal is only about Rs. 3 crores. The proprietors and other middle interests absorb Rs. 14 crores of the revenue of the State for collection of only Rs. 3 crores. The time has come when the position should change for the better.

The zemindars or talukdars should now be left to themselves and no helping hand of the State should be extended to them when they suffer from their own carelessness and extravagance, just as it is not done when the raiyats are in trouble.

So proposals have been made in this Bill to do away with clause (*e*) of section 6 of the Court of Wards Act, 1879, which empowers the Government to take up the management of those proprietors, who, though otherwise qualified, cannot manage their estate properly. If this clause is deleted, the Government will be able to buy up the estates of those proprietors (excepting females, minors and physically unfit ones) who cannot manage their estates at a nominal cost. Thus gradually the system of State Ownership of Land will be able to replace the Permanent Settlement without disturbing the equilibrium of the society.

The estate of any disqualified proprietor should be kept under the management of Court of Wards so long as there is none of his family qualified to manage it. As soon as any heir or co-sharer proprietor becomes qualified, Government should release the estate to him. To effect this, the proviso to section 7 of the Act has been substituted by a new one.

Every effort should be made to release the estates which have been taken over by the Court of Wards for management, as soon as possible. A disqualified proprietor should only be given a bare subsistence allowance and no consideration should be made of his status and mode of living previous to his estate coming under the (Government) Court of Wards. So long as his estate has not recovered the capacity of a good payment to him after clearing off his debts and liabilities, no luxury should be allowed to the disqualified proprietor and his family.

The Court of Wards taking over the management causes so much hardship to the tenants and raiyats of the estate in the matter of realisation of rents and arrears through the procedure of certification that many of them are crushed for ever and many are reduced to extreme poverty. It will only be fair if certificate procedure is not allowed to the cases of realisation of rents from the raiyats; more so when the ordinary law is sufficient for the purpose. So section 63 of the said Act has been proposed to be changed.

THE BENGAL TOBACCO (SALES LICENSING) (AMENDMENT) BILL, 1937.

A

BILL

to amend the Bengal Tobacco (Sales Licensing) Act, 1935.

WHEREAS it is expedient to amend the Bengal Tobacco (Sales Licensing) Act, 1935, in the manner hereinafter appearing; Ben. Act XIV of 1935.

Amendment of section 4.

2. In section 4 after the words "no person shall sell wholesale" the words "or retail" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Persons who will sell tobacco retail are generally poor and petty tobacco sellers. These persons seldom can make an income equal to the sum they are to pay as license-fee during the whole year. As a result of this Act, these petty tobacco sellers have got to wind up their business. It is in order to prevent this that this short amendment is proposed.

THE BENGAL EMERGENCY RENT REDUCTION BILL, 1937.

A

BILL

to provide for the relief of tenants of all classes in respect of agricultural tenancies in Bengal as regards rent due to their landlords.

WHEREAS it is expedient to amend certain parts of the law governing the relations between tenants of all classes in respect of agricultural tenancies in Bengal and their landlords.

It is hereby enacted as follows:—

1. (*1*) This Act may be called the Bengal Emergency Rent Reduction Act, 1937.

(*2*) It extends to the whole of Bengal except Calcutta as defined by clause (*ii*) of section 3 of the Calcutta Municipal Act, 1923.

(*3*) It shall come into force on 14th April, 1938 (corresponding to 1st *Baisak*, 1345, B.S.), with retrospective effect and it shall remain in operation for five years from the aforesaid date.

(*4*) It shall apply to all classes of tenants as set forth in Chapter II of the Bengal Tenancy Act, 1885. Act VIII of 1885.

2. The existing rate of rent and all rents (together with interest thereon) which are in arrears for four years and for any lesser period, on 14th April, 1938, from any tenant shall be reduced by fifty *per cent.* and no landlord shall be entitled to realise any such rent (together with interest thereon) in excess of the amount hereby prescribed, and no Court shall pass any decree in any suit for any such rent pending before or after 14th April, 1938, in excess of the amount hereby prescribed and no damages shall be awarded in respect of the amount of rent decreed.

3. (*1*) Any decree for rent obtained before 14th April, 1938, but put into execution afterwards shall be executed only for fifty *per cent.* of the total amount decreed (including interest, damages and costs) *minus* any amount which may have been received from the tenants by the decree-holder.

(*2*) Any execution proceeding in respect of any such decree pending on 14th April, 1938, in which no sale has yet taken place shall be proceeded with only for fifty *per cent.* of the total amount decreed (including interest, damages and cost) *minus* any amount received from the tenant by the decree-holder.

(*3*) Any sale of immoveable property of a tenant in execution of any such decree in which a decree-holder landlord has become the purchaser shall be set aside if within six months from 14th April, 1938, a tenant judgment-debtor deposits in Court the total decretal amount (including interest, damages and cost) calculated at the aforesaid reduced rate *minus* any amount received from the tenant by the decree-holder:

The Bengal Emergency Rent Reduction Bill, 1937.

(Clause 4.)

Provided that no order for setting aside a sale under this sub-section shall be passed by a Court unless notice has been given to all persons affected thereby:

Provided further that no order for setting aside a sale under this sub-section shall be passed if before the 1st September, 1937, the auction-purchaser landlord has settled the entire sold lands to any tenant by accepting registered *kabuliyat*.

4. The provisions of the Bengal Tenancy Act, Civil Procedure Code or any other Act inconsistent with the provisions of this Act shall be suspended so long as this Act remains in force.

STATEMENT OF OBJECTS AND REASONS.

It is well-known fact that owing to economic depression it has become extremely difficult for all classes of tenants governed by the Bengal Tenancy Act to provide for bare food and clothing for their families and in consequence huge arrears of rents have accumulated against them. In many cases decrees for rents have been passed and they are being put to execution. The Bengal Agricultural Debtors Act has made no provision for reduction of rent. This Bill is, therefore, intended to give temporary relief to all classes of tenants governed by the Bengal Tenancy Act so that they may tide over their present economic crisis. The superior landlords will also derive indirect benefit by the provisions of this Bill, because it will enable the tenants to wipe off their debts on account of rent payable to their landlords and this will pave the way for regular payment of rents in future. This Bill is a temporary piece of legislation and it will not, therefore, take away the rights of any class of landlords.

A

BILL

further to amend the Bengal Local Self Government Act, 1885.

WHEREAS it is expedient further to amend the Bengal Local Self-Government Act, 1885, for the purpose of providing for the abolition of nomination to and extension of franchise in all local bodies, and to that end also to amend the Bengal Village Self-Government Act 1919, in the manner hereinafter appearing ; Ben. Act III of 1885. Ben. Act V of 1919.

It is hereby enacted as follows –

Short title and commencement.

1. (*1*) This Act may be called the Bengal Local Self-Government (Amendment) Act, 193 .

(*2*) This section shall come into force at once and the remaining provisions of this Act shall come into force in such areas and on such dates as the Provincial Government may by notification in the *Calcutta Gazette* direct, and for this purpose different dates may be appointed for different provisions of this Act, and for different areas ·

Provided that all the provisions of the Act shall be enforced over the whole area in which the Bengal Local Self-Government Act, 1885, is in force on or before the 31st of December, 1938.

PART I.

Amendment of section 7 of Bengal Local Self-Government Act of 1885.

2. In section 7 of the Bengal Local Self-Government Act of 1885 (hereinafter referred to in this part as the said Act)—

(*1*) In the first paragraph for the words " and may include elected and appointed members " the words " and shall be composed wholly of members elected by secret ballot in the manner to be provided by the local Government " shall be substituted

Amendment of section 9.

3. In section 9 of the said Act—

(*1*) In the first paragraph for the words " two-thirds of the members " as in force in non-union board areas and the words " such proportion of the members" as in force in union board areas, the words " the members " shall be substituted.

(*2*) After the first paragraph, the following paragraph shall be inserted .–

> " Every male and female person of the full age of 21 years of age resident or having a place of residence within the area under the authority of local board shall, subject to the provisions of section 15A, be entitled to vote at an election of members of such local boards."

Amendment of section 10.

4. In section 10 of the said Act– -

(*1*) In sub-section (*1*) and sub-section (*2*), for the words " the prescribed proportion of elected members " the words " the prescribed number of members " shall be substituted.

(*2*) In sub-section (*2*) for the words "to make up that proportion" the words "to make up that number" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The purpose of the Bill is to do away with nomination in local bodies and also to extend the franchise to include all adult persons within the area under the control of a local body.

The reasons for such amendment are obvious. One of the purposes of local self-government is to associate the people in the administration of their own affairs and thus train them in methods of Government. Nomination cuts across the principle of representation, and the system as it now obtains leads to the anomalous position in which a person in spite of the opposition of the majority of elected members in the local body may be, and often is, elected Chairman of the district board or President of union board, with the help of the nominated members. This encourages ambitious and designing persons to court the favour of local officials in order to secure their position, instead of attempting to win the confidence of their electorate through useful and hard work.

With regard to the extension of franchise, it is generally admitted that the representation should be as wide as possible. Another innovation is the enfranchisement of women. Female franchise has been given in municipalities and in the matter of election to the legislatures and it is anomalous therefore that they should remain unfranchised in the matter of local board elections. In these days of emancipation of women when the womenfolk of the country are taking part in higher spheres of political activities, it is meet and proper that women should also have their say in the administration of local bodies.

The repeal of section 36A intends to do away with the provision for abolition of local boards. Local boards in bigger districts serve their useful purposes and in the outlying subdivisions give facilities to local men of influence in participating in the administration of small public bodies. Provisions for abolition of local boards may give a handle to some district board members to throttle the aspiration of many influencial men in outlying areas. Besides, the district board will find it difficult to maintain an uniformity in the administration of a wider area when work will be multiplied by having to take over the work hitherto done by local boards.

NOTIFICATION.

No. 4762L.A.—18th November, 1937.—In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL MEDICAL (AMENDMENT) BILL, 1937.

A

BILL

further to amend the Bengal Medical Act, 1914.

WHEREAS it is expedient further to amend the Bengal Medical Act, 1914, for the purposes hereinafter appearing; Ben. Act VI of 1914.

AND WHEREAS the previous sanction of the Governor under sub-section (*i*) of section 119 of the Government of India Act has been obtained to the passing of this Act; 26 Geo. V, ch. 2.

It is hereby enacted as follows:—

PRELIMINARY.

Short title, extent and commencement.

1. (*a*) This Act may be called the Bengal Medical (Amendment) Act, 1937.

(*b*) It extends to the whole of Bengal.

(*c*) It shall come into force immediately.

Amendment of section 17.

2. In section 17 *insert* the following as the first proviso, namely:—

Provided that the Governor in Council of Ministers may permit the registration of:—

(*a*) Any person who had undergone a full course of training at least for four years in any medical college or school, obtained a certificate to that effect from the head of such college or school and was practising as a medical practitioner on the date when the Act came into force: provided he passes a special examination such as the Medical Council may hold for the purpose of granting registration.

(*b*) Any person who had obtained proper training at least for four years in any medical institute which was subsequently affiliated to the State Medical Faculty of Bengal and joined the profession before the 5th September, 1935: provided he passes a special examination such as the Medical Council may hold for the purpose of granting registration.

STATEMENT OF OBJECTS AND REASONS.

From some time past it has been felt that the provisions of the Bengal Medical Act, 1914, are causing much hardship to a large number of persons who, though properly trained from sources other than those recognised by the authorities and though they had been actually practising Medicine, Surgery and Midwifery from before 1914, cannot get themselves registered and thus become *qualified* medical practitioners. The glaring example of this is the case of the students of the National Medical Institute, with the Chittaranjan Hospital attached to it. The students of this institute completed their five years' college course before this institution was affiliated to the State Medical Faculty. The students remain *unqualified* though properly trained up for this petty technical reason of non-registration. Practitioners with similar qualification in other provinces, viz., Bombay, the Punjab, the United Provinces, Madras, Burma, etc., have been given the privilege of registration long ago, either by amendments of the Acts of the respective provinces or by Government notification. In Bengal nothing in this direction has been done up to date. The redress sought for may be given by simple amendment of Medical Act, and the object of the present Bill is to make this amendment.

The Bengal Medical Act, 1914, in seeking to protect the public against *quacks*, omitted to make provision for the safety of those doctors who had obtained diplomas and certificates from various well-organised and efficient medical institutions before the passing of the Act, who had been practising with ability and reputation for a long time and who could by no stretch of language be called *quacks*, with the result that these able, experienced and well-reputed doctors have been classed among the *quacks*. Many of them have been thrown out of employment from hospitals, tea gardens, ships, steamers, etc., debarred from granting certificates of birth or of illness and handicapped in many other ways, *e.g.*, in procuring for their patients the requisite drugs included in the schedule of poisons. The transitory provision by Government for an examination of these doctors by the State Medical Faculty was in force only for two years from the passing of the Bengal Medical Act, 1914. The time was too short for the majority to avail themselves of the concession and moreover a good many did not even get the necessary information within the period. Such people are now on the brink of starvation. Many of them have outgrown the age at which a change of avocation is possible.

The case of those who have obtained the proper training in unrecognised medical institutions since 1914, stands on a similar footing. Several unregistered doctors who have received their training in such institutions are now serving tea gardens, coal mines, etc., and have been highly spoken of by their superior officers both Indian and European. Some of these unrecognised institutions have since been recognised, but the students who completed their course of education therein and began to practise before such recognition, have been left in the lurch. We, therefore, find good doctors trained at the same institution, one set of whom, the older and more experienced set, are unqualified for want of registration, while another set are qualified by registration. Under these circumstances it is but fair and equitable that such students should be given at least one chance of being qualified. Hence the necessity of this Medical Bill.

(4) The quantity of tea covered by a special export licence shall be accounted for against the export quota of the year in which the original licence was or could have been issued under this Act or under the Indian Tea Control Act, 1933, as the case may be. XXIV of 1933.

Committee to maintain accounts of quotas.

18. (1) The Committee shall maintain an account of every export quota showing, in addition to such other particulars as the Committee may think fit, the licences issued against it and the unexhausted balance.

24. No quota fixed, no order granting or refusing to grant any licence or permit, and no other act done by the Committee under this Chapter shall be called in question in any Court.

Export of tea produced in Indian States.

25. Where legislation enacted in any Indian State has made provision in pursuance of the agreement implemented by and in consonance with the provisions contained in this Act for the control of the export of tea from and for the control of the extension of the cultivation of tea in the State, the Committee shall issue export licences, special export licences and permits for the export or carriage out of British India of tea produced in any such State in the same manner and subject to the same incidents as such licences or permits are issued in respect of tea produced in British India.

CHAPTER III.

CONTROL OVER THE EXTENSION OF TEA CULTIVATION.

Method of control of extension of tea cultivation.

26. So long as this Act remains in force, no person shall, save in pursuance of a written permission granted by or on behalf of the Committee, plant tea on any land whether included in the area of a tea estate or not, except land which was on the 31st day of March, 1938, and had on that date been continuously for the two years immediately preceding, planted with tea; and no person shall without such permission extend the area planted with tea in any tea estate, or replace any area planted with tea by a new area so planted:

Provided that nothing contained in this section shall prohibit the in-filling or supplying of vacancies by the owner of a tea estate within the area of the estate on land which was planted with tea on the 31st day of March, 1938, or the replanting of tea upon land planted with tea on the 31st day of March, 1938, from which the original bushes have been uprooted, or upon land planted with tea on the 31st day of March, 1936, from which the original bushes have been subsequently up-rooted and which is on the 31st day of March, 1938, lying fallow in accordance with normal planting practice.

Limitations to the extension of tea cultivation

27. (*a*) the unexpended balance of fees received by the Indian Tea Licensing Committee constituted under that Act shall not lapse to Government but shall be transferred to the Indian Tea Licensing Committee as constituted under section 3 of this Act;

(*b*) until provision is otherwise made under the corresponding provisions of this Act, all fees fixed, all licences and permits issued and all quotas allotted under the Indian Tea Control Act, 1933, shall, unless inconsistent with the provisions of this Act, be deemed to have been fixed, issued or allotted under this Act; and XXIV of 1933.

(*c*) any offence punishable under the Indian Tea Control Act, 1933, shall be punishable and may be dealt with as if it were an offence punishable under the corresponding provision of this Act. XXIV of 1933.

STATEMENT OF OBJECTS AND REASONS.

The existing International Scheme for regulation of the export of tea and for the control of extension of tea cultivation expires on the 31st March, 1938. The Indian Tea Control Act, 1933, which was passed to give effect to the scheme in British India, will also expire on the same date.

2. Representatives of the tea industry in India, Ceylon and the Netherlands Indies have executed an agreement providing for the renewal of the scheme for a further period of five years from the 1st April, 1938. After careful consultation with the various interests affected and the Provincial Governments as well as the Indian States concerned the Central Government have decided to give official recognition to the renewed tea control scheme. The specific consent of the Provincial Governors has also been obtained to legislation being undertaken in the Central Legislature regarding the control of extension of tea cultivation which subject falls within the Provincial Legislative List under the new constitution.

3. There has been unanimity of opinion that the control scheme has been beneficial to the tea industry in India and the proposals for legislation have the support of 99 per cent. of the industry. The draft Bill is designed to give legislative sanction to the operation of the renewed scheme for a period of five years from the 1st April, 1938. It may be mentioned that the other parties concerned, namely, the Governments of Ceylon and the Netherlands Indies, have already agreed to adhere to the renewed scheme.

Resolution on the Report on the Police Administration of the Bengal Presidency for the year 1936.

GOVERNMENT OF BENGAL.

HOME DEPARTMENT.

Police.

RESOLUTION—No 4199PL.

Calcutta, the 19th November 1937.

Read—

The Report on the Police Administration of the Bengal Presidency for the year 1936.

Mr. J. C. Farmer held the office of the Inspector-General of Police throughout the year.

2. *The Eastern Frontier Rifles.*—The battalion maintained its usual high standard of efficiency and discipline under its Commandant, Lt.-Col. Dallas-Smith, and Major J. K. Jones, who was in command from the 5th May to the 17th October 1936, while the Commandant was on leave.

3. *Strength, health and discipline.*—The strength of the permanent forces (including the Eastern Frontier Rifles) at the close of the year was 24,955 officers and men against 24,978 of the previous year. The reduction in the strength is mainly due to the replacement of 20 Reader Sub-Inspectors by clerks.

The total number of constables recruited during the year was 1,556, of whom 644 were Bengalis, against 1,232 in 1935, of whom 522 were Bengalis. Henceforward it is proposed to recruit only Bengalis for the unarmed force, but Biharis and men of other provinces will continue to be recruited for the Special Armed Force. It is gratifying to note that Bengali candidates with requisite educational and other qualifications are coming forward for enlistment as constables.

The health of the lower ranks of the force showed no marked improvement, but it is satisfactory to note that the steady progress which was made in the last few years has been maintained. In 1933, the total number of admissions into hospitals was 15,044, while in 1936 the number fell to 11,647.

The number of officers and men judicially punished, excluding those dealt with under the Police Act, was 28—one less than the figure of the previous year. The number of those departmentally punished rose from 8,916 to 10,497, an increase which, taken in conjunction with the fact that the number of complaints instituted against the police by private individuals showed a decrease from 247 in 1935 to 204 during the year under report, indicates the high standard of discipline demanded by the supervising staff.

Out of the 166 cases of private complaints disposed of during the year, only 19 ended in conviction, 49 resulted in acquittal or discharge, and as many as 98 cases were dismissed.

Thirty-seven civil suits were instituted against police officers, of which 11 were dismissed, 12 were decreed, and the rest were pending at the close of the year.

4. *Police buildings.*—Improvement in the housing of the force is admittedly an urgent necessity. To enable this problem to be tackled more satisfactorily, larger powers have been delegated to the Inspector-General in the matter of sanctioning expenditure on building projects. It is hoped that this procedure will result in the gradual improvement of police buildings.

5. *Crime statistics.*—The number of non-cognizable cases increased from 124,213 to 129,077, but the number of cognizable cases fell by 1,249 from 87,872 to 86,623. The number of serious crimes, it is satisfactory to note, fell by 1,221 from 43,052 to 41,831. A fall in riot, murder, dacoity, robbery and burglary cases was mainly responsible for this decrease in serious crime. The respective figures for the above categories for the year under report were 581, 503, 1,131, 487 and 24,506, against 671, 554, 1,242, 552 and 26,149, respectively, during the previous year. It is gratifying to note that the progressive decrease in the number of dacoities, which was noticed last year, has been well maintained.

The effective use of Village Defence Parties has been noticed with interest, and it is hoped that the assistance obtained from these bodies, supplemented by that of the rural police, will enable further improvements to be made in the future. It is noted with regret that the number of instances in which active resistance was offered to dacoits shows a decrease, the figures being 56 against 101 of the previous year.

A marked improvement is noticeable in respect of dacoities committed in riverine areas, the figure being 11 against 35 in the previous year. This is

attributable to better co-ordination of patrols as a result of the recent amalgamation of the River Police and the District Police.

As regards Railway crimes, thefts from passengers fell from 115 to 109, and of the 32 persons sent up, 25 were convicted. Four cases of theft of mail bags on the Sealdah section of the Eastern Bengal Railway occurred during the year, in one of which the mail guard was murdered in the mail van, and four bags containing insured covers worth Rs. 17,725 were stolen. The bulk of the stolen property has been recovered, and the case was still under investigation at the close of the year. One of these four cases was committed by a *bhadralok* youth armed with a revolver.

6. *Working of the Rural Police.*—The total number of dafadars and chaukidars was 75,174 against 75,308 in 1935, and the cost of their maintenance was Rs. 54,41,484 against Rs. 54,56,294 in the previous year. The average cost per month per head of the rural police came to Rs. 6-0-6 p. There was a welcome improvement in the co-operation of union boards with the police in the prevention and detection of crime. Co-operation meetings between police officers, presidents of union boards and villagers were held in many places in pursuance of Government's policy of endeavouring to gain the confidence of the public and their assistance in combating crime. Most of the Superintendents of Police and Circle Inspectors have taken a real interest in this part of their duties. It is satisfactory to record that individual members of union boards rendered valuable assistance to the police on numerous occasions, and that the work of Village Defence Parties in apprehending offenders and preventing the commission of crime has also been of assistance to the force.

7. *Revolutionary crime and the Intelligence Branch.*—The terrorist situation has considerably improved, but the need for the utmost vigilance still remains, and the prevention of the dissemination of objectionable communist and seditious literature has become a serious problem.

The fall in the number of terrorist crimes is marked, and excluding cases which occurred in the Calcutta area, only 4 crimes were committed by terrorists, as against 9 in the previous year and 14, 41, and 74 in 1934, 1933, and 1932, respectively. This marked and steady improvement reflects great credit on all ranks of the Intelligence Branch, who worked hard and efficiently throughout the year. Explosives were recovered in two and revolvers in three cases during the year. In one of the cases in which a revolver was recovered, two persons, one of whom subsequently turned out to be a political absconder, were seen moving in a suspicious manner near Feni. On being challenged, they opened fire on the police. They were overpowered and arrested. At their trial by a Special Tribunal, the absconder was sentenced to transportation for life, and the other man was acquitted. The revolver used was identified as one of those stolen during the Chittagong Armoury raid of 1930 Besides the absconder referred to above, 3 other absconders were arrested during the year. Two had escaped from the Dum Dum Industrial Training Camp, and one had broken out from the Alipore Central Jail in 1934.

8. *Criminal Investigation Department.*—It is satisfactory to note that a very formidable organisation of persons who were suspected of systematically perpetrating ticket frauds on the Eastern Bengal Railway was exposed by the C.I.D. during the year. Another large fraud organised by postal employees and Marwari merchants, who were suspected of selling used stamps as new after treating them chemically to remove the post marks, was under investigation at the close of the year.

9. *Commendation of officers.*—The Governor is pleased to read the tributes paid by the Inspector-General of Police to his staff, and desires to take this opportunity of placing on record his appreciation of the services rendered by all ranks of the force. Thanks are specially due to Mr. Farmer for maintaining a high standard of discipline and efficiency.

Order—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the resolution be published in the *Calcutta Gazette.*

An initial premium shall be charged on the lease and the lease shall be put up to public auction for sale to the person who agrees to pay the highest amount as premium.

(3) When a lease comes up for renewal at the end of the first or subsequent term of years, an indenture for such renewal shall be executed in the form prescribed in Schedule IV.

17. Application for Building Sites.—(1) Applications for building sites on land under the management of the Military Estates Officer shall be submitted to the Military Estates Officer in the printed form prescribed in Schedule V.

(2) Every application shall specify the situation of the land required, the exact purpose for which it is wanted and the area of land in the cantonment, if any, already held by the applicant; and shall be accompanied by a site plan of the area applied for prepared at the cost of the applicant.

18. Procedure on rejection by the Officer Commanding the Station.—The Military Estates Officer shall lay the application before the Officer Commanding the Station and the Officer Commanding the Station may reject the application for reasons to be recorded in writing which shall be entered on the application form and the form shall be filled in the manner prescribed by rule 29. The decision of the Officer Commanding the Station shall be communicated to the applicant.

19. Procedure on acceptance by the Officer Commanding the Station. Fixing of rent and reserve price of premium.—(1) If the Officer Commanding the Station approves of the application, the Military Estates Officer shall proceed to have the site surveyed and demarcated, if necessary, and shall fix the annual rent to be charged in accordance with the rate prescribed by the standard table of rents prepared under rule 8 and such reserve price for the premium on the lease as may appear to be reasonable.

(2) In no case shall the reserve price so fixed be disclosed to the public or the annual rent be charged at a lower rate than that fixed by the standard table of rents.

20. Survey and demarcation.—(1) The reserve price shall be calculated so as to include the cost, if any, of surveying and demarcating the site and a proportion of any expenditure that may have been incurred in preparing and laying out the land, including the site under application, for building purposes.

(2) The cost of such survey and demarcation shall be deposited by the applicant and shall be deducted from the price eventually realised as premium and repaid to the depositor.

21. Notice of Auction.—The Military Estates Officer shall then publish a notice, in the form prescribed in Schedule VI stating the date on which, the time and place at which and the conditions under which, the lease of the site applied for will be sold.

22. Auction.—On the date and at the time and place appointed, the Military Estates Officer shall proceed to sell the lease by auction to the person who agrees to pay the highest amount as premium; provided that in no case shall the lease be sold unless the reserve price fixed under rule 19 has been reached.

24. Confirmation of Auction.—The Military Estates Officer shall report the result of the auction and forward the proceedings to the Collector for his concurrence. Thereafter the proceedings shall be forwarded to the Officer Commanding-in-Chief, the Command, or to such other authority as the Central Government may appoint for the purpose, for his approval, and if the Officer Commanding-in-Chief, the Command, or the appointed authority, approves, the sale shall be deemed to be duly confirmed:

Provided that, if the estimated market value of the site exceeds Rs. 10,000, the approval of the Central Government shall also be required before the sale shall be deemed to be duly confirmed.

Explanation—For the purposes of this rule, the market value shall be estimated, as far as possible, on the basis of actual sales of unoccupied land for building purposes in the locality, but if the market value cannot be estimated on such basis, it shall be taken to mean twenty times the annual value of the site. In calculating the annual value, the rent fixed, as well as the premium realised by the auction shall be taken into account.

25. Powers of Collector.—(1) On receipt of the proceedings forwarded to him under rule 24 the Collector, before expressing his concurrence, shall satisfy himself,

(*a*) that the whole proceedings have been conducted in strict accordance with the provisions of these rules, and

(*b*) that the annual rent and the price realised for the premium on the lease at the auction is reasonable.

(2) If the Collector is not satisfied on either of these points he shall return the proceedings to the Military Estates Officer with a recommendation that the proceedings be cancelled; and thereupon fresh proceedings shall be taken and all the foregoing provisions of this rule shall apply to such fresh proceedings.

(3) If the Collector considers that the disposal of the site itself is for any reason prejudicial to the public interest, he may return the proceedings to the Military Estates Officer with a statement of his reasons for doing so and a request that the matter may be reconsidered in accordance with his recommendations.

(4) If the Officer Commanding the Station disagrees with the recommendations of the Collector, the proceedings shall be submitted for the orders of the Officer Commanding-in-Chief, the Command, if the estimated market value of the site does not exceed Rs. 5,000, or of the Central Government in all other cases.

26. Disposal of Lease by Private Agreement.—Notwithstanding anything contained in rules 16 to 24, the Military Estates Officer may, in exceptional cases for exceptional reasons to be recorded in writing, and subject to the approval of the Central Government, or such other authority as the Central Government may appoint for this purpose, dispense with the deposit of the cost of survey and demarcation, as prescribed by rule 20, or with the auction of the lease, as prescribed by rule 22, or with both, and may lease any site by private agreement, at such rate of rent, and on payment of such premium, as the Central Government or the appointed authority may approve in each case:

Provided that the concurrence of the Collector and the approval by the Officer Commanding the Station shall be obtained before application is made for the approval of the Central Government or the appointed authority.

27. Special Lease for the Regularization of Old Grants.—Notwithstanding anything contained in rules 16 to 26, the Military Estates Officer in any case where a site is held without a regular lease, may on application by the holder, without any reference to any superior authority, grant a lease for the said site in the form set out in Schedule VII.

28. Execution of Leases.—(1) As soon as the auction has been duly confirmed, the successful applicant shall be required to execute a lease for the site in the form prescribed in Schedule VIII.

(2) The lease shall be executed on behalf of the Governor General in Council by the Officer empowered in this behalf by the Central Government and a duplicate of the lease shall be retained in the office of the Military Estates Officer.

(3) The duplicate lease shall be preserved in an envelope in the form prescribed in Schedule XVI.

31. Leases for special periods and on special terms.—(1) A lease for a building site for a period not exceeding 30 years or a lease in perpetuity, may be granted by the Military Estates Officer in the forms prescribed in Schedules IX and X, where for special reasons such a course appears to be advantageous to the Central Government:

Provided that no such lease shall be granted without previous consultation with the Collector and the previous sanction of the Central Government:

Provided also that in every other respect the procedure prescribed in rules 16 to 30 shall apply.

(2) A lease of a building site in perpetuity may, if the site is needed for a definite public or religious purpose and the use of the more favourable form of lease prescribed in Schedule XI is justifiable, be granted by the Military Estates Officer in the form prescribed in Schedule XI and in the manner prescribed in rule 26:

Provided that no such lease shall be granted without previous consultation with the Collector and the previous sanction of the Central Government.

32. Agricultural Land. Leases.—(1) The method of disposing if agricultural land entrusted to the management of the Military Estates Officer shall be by lease without a premium, and the rent payable under the lease shall be put to auction.

(3) The period for which a lease is auctioned may, if the estimated market value of the site does not exceed Rs. 10,000, be extended up to ten years with the concurrence of the Collector and the approval either of the Officer Commanding-in-Chief, the Command, or of such other authority as the Central Government may appoint for this purpose.

(4) An extension of the period for which a lease is to be sanctioned beyond ten years, or beyond four years when the market value of the site exceeds Rs. 10,000 shall require the concurrence of the Collector and the approval of the Central Government:

Provided that, in any cantonment specified by the Central Government in this behalf and in each case with their previous sanction or the sanction of such other authority as they may appoint for this purpose, the period of the lease may exceed four years and the rent payable under a lease the period of which exceeds four years may be fixed by private treaty with the lessee.

33. Agricultural Land. Method of disposal.—(1) The Military Estates Officer shall, in ample time before the commencement of the cultivation season, publish a notice in the form prescribed in Schedule XII, giving particulars of the lands available for disposal, the date on which, the time and place at which and the conditions under which they will be disposed of; shall also fix a reserve price, which shall not be disclosed to the public, for the rent of each separate holding in accordance with the rate prescribed by the standard table of rents prepared under rule 8; and shall, on the date and at the time and place appointed, put the lease of the lands to auction to the highest bidder:

Provided that, in special cases and for special reasons and with the previous sanction of the Officer Commanding-in-Chief, the Command, the Military Estates Officer may call for tenders for the sale of the lease instead of putting it to auction.

(2) The result of the auction, or the tenders, shall be reported to the Officer Commanding-in-Chief, the Command, for his approval, and if the Officer Commanding-in-Chief, the Command, approves, the sale of the lease shall be deemed to be duly confirmed:

Provided that the lease shall not be sold unless the reserved price has been reached:

Amendment of schedule IX.

10. In schedule IX—Part II—Rates of fee for licenses of the said Act, figures against the first three items shall be substituted by the following figures respectively, namely :—4, 4, 1.

STATEMENT OF OBJECTS AND REASONS.

A large section of the Mussalman community in Calcutta abstained from participating in the last election of the Calcutta Corporation. This is a situation which is most unfortunate. With a view to securing the whole-hearted and willing co-operation of all sections of that community, it has become imperatively necessary to amend some sections of the Calcutta Municipal Act of 1923, in a manner satisfactory to all concerned. The Draft Bill, therefore, seeks without unduly trenching on the legitimate rights of others, to introduce such reforms as are calculated to secure the fullest co-operation of all sections of the Moslem community—a co-operation which is vitally essential for the proper administration of the municipal affairs of Calcutta and its suburbs.

The Bill also seeks to redress a grievance arising out of the burden of taxation in respect of hackney-carriage horses in Calcutta by reducing slightly some of the taxes enumerated in schedules VIII and IX of the said Act.

No. 4910L.A.—26th November, 1937.—In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL AGRICULTURAL DEBTORS (AMENDMENT) BILL, 1937.

A

BILL

to amend the Bengal Agricultural Debtors Act, 1935.

WHEREAS it is expedient to amend the Bengal Agricultural Debtors Act, 1935, in the manner hereinafter appearing; Ben. Act VII of 1936.

It is hereby enacted as follows.—

Short title.

1. This Act may be called the Bengal Agricultural Debtors (Amendment) Act, 1937

2. It shall come into force on such date as the Provincial Government may, by notification in the *Calcutta Gazette*, appoint in this behalf

3. In sub-section (*5*) of section 8 of the Bengal Agricultural Debtors Act, 1935 (hereinafter referred to as the said Act), the words "a Board may for good and sufficient reason entertain a further application in respect of any debt" shall be substituted by the words "a Board may for good and sufficient reason allow an applicant to amend his application in respect of any debt"

4. In clause (*a*) of sub-section (*1*) of section 9 of the said Act, in place of the words "an ancestral," the words "a predecessor's" shall be substituted

5. In sub-section (*2*) of section 9 of the said Act, the words "if so empowered under section 7" shall be deleted.

6. In sub-section (*2*) of section 13 of the said Act the words "if so empowered under section 7" shall be deleted

7. In clause (*b*) of sub-section (*1*) of section 19 of the said Act, for the words "forty *per cent*" the words "twenty *per cent.*" shall be substituted and the words "if it is so empowered under section 7" shall be deleted

8. In the second paragraph of section 21 of the said Act, the words "in excess of simple interest at the rate of six *per cent per annum* on the principal of such debt as determined under sub-section (*2*) of section 18" shall be deleted.

9. In proviso to sub-section (*6*) of section 22 of the said Act, for the words "five years" the words "two years" shall be substituted.

10. Section 48 of the said Act shall be deleted.

11. After section 56 of the said Act the following sections shall be added, namely:—

"57. An application under section 8 (*1*) by a debtor or section 8 (*2*) by a creditor may be amended before the hearing commences by the Board of its own motion or on the application of the parties, if the Board is satisfied that the amendment is necessary for the ends of justice.

The Bengal Agricultural Debtors (Amendment) Bill, 1937.

(*Clause 11.*)

58. On the death of the applicant or any of the applicants, the creditors or any of the creditors, their heirs may be substituted within 40 days on application by the heirs of the deceased.

59. Dues under an award may be paid to the creditors by postal money-order.

60. The Board may, if satisfied on evidence or otherwise, order for the full or part satisfaction of the dues of the usufructuary mortgagees or mortgagees by conditional sale whether these creditors hold under registered or unregistered deeds and may further order that the aforesaid mortgagees shall vacate the mortgaged land in terms of the order of the Board and any breach thereof shall be punishable with fine which may extend to rupees hundred."

STATEMENT OF OBJECTS AND REASONS.

Clause (3).—The entertaining of an additional application brings in additional complication without any benefit, hence provision should be made for amendment.

Clause (40).—The word predecessor is more general and covers cases not covered by the word ancestor.

Clauses (5), (6) and (7).—The powers under these sections are essentially necessary for the proper running of the Boards, so these powers should not be held up. Only powers under sections 21 and 22 may be withheld from ordinary Boards. The percentage in section 19 (*b*) is high, so it needs change.

Clause (8).—The creditors owing to the fact that they are entitled to interest do not generally come to agreement, hence the necessity of the deletion.

Clause (9).—Publication is redundant.

Clause (11).—There are no provisions in the Act for amendment or substitution and hence these provisions should be incorporated (*vide* proposed sections 57 and 58). There is no provision in the Act for the payment of the dues under the award (*vide* proposed section 59), and hence the necessity for this The proposed section 60 is intended to facilitate the enforcement of awards in mortgage cases.

No. 4911L.A.—26th November, 1937.—In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL MONEY-LENDERS (AMENDMENT) BILL, 1937.

A

BILL

to amend the Bengal Money-Lenders Act, 1933.

WHEREAS it is expedient to amend the Bengal Money-Lenders Act, 1933, in the manner hereinafter appearing; Ben. Act VII of 1933.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Money-Lenders (Amendment) Act, 1937.

Amendment of section 3 of Bengal Act VII of 1933.

2. In section 3 the words "six *per cent. per annum*" and the words "nine *per cent. per annum*" be substituted for the words "fifteen *per cent. per annum*" and "twenty-five *per cent. per annum*" respectively wherever they occur in the section.

Amendment of section 4.

3. In section 4 the words "arrears of" be deleted and the words "of a loan" be inserted between the words "interest" and "amount" and the words "unless it is satisfied that the money-lender had reasonable grounds for not enforcing his claim earlier" be also deleted and the words "together with any interest already realised" be inserted after the words "recoverable in the suit." The article "a" before the word "loan" be replaced by the article "the."

Amendment of section 5.

4. In section 5 the words "ten *per cent. per annum*" be replaced by the words "three *per cent. per annum.*"

STATEMENT OF OBJECTS AND REASONS.

The main object of the Bengal Money-Lenders Act, 1933, is to put a check to the creditors realising huge amounts of interests quite unproportionate to the original principal. It has been sought to achieve that object by lowering the rate of the interest as well as by fixing a limit to the amount of accumulated interest to be realised from the debtors. So that the debtors may not find it beyond their capacity to pay up their debts the rate of interest has got further to be lowered. As regards the limit of the interest the language of the Act is not so very clear and as a result in mofussil courts the debtors practically get no benefit of the Act as a whole. A creditor, if he wants, can again obtain on account of interest a decree for a sum equal to the principal amount although his debtor may have paid up considerable amount of interest towards the debt outside court previously. The result is that now-a-days the good debtors also have stopped paying any interest outside court because in a court of law that amount is not taken into consideration to make the amount of interest equal to the principal amount. To clear up this anomally the language of section 4 of the Act ought to be unambiguous so that there is left no room for any doubt as to that the amount of interest on a loan should in no case exceed the principal of the loan and that the courts will never decree on account of interest any sum which is not equal to the amount of principal of the loan less the sum of interest that is already paid outside court previously.

THE BENGAL SHOP CONTROLLING BILL, 1937.

WHEREAS it is expedient to provide for the physical, mental and financial improvement of the shopkeepers;

It is hereby enacted as follows:—

Short title.

1. This Act may be called The Bengal Shop Controlling Act, 1937.

2. In this Act, unless there is anything repugnant in the subject or context, "shop" means all shops paying trade license tax excepting those that come within Factory Act.

3. This Act shall come into force from such date as the Provincial Government may, by notification in the *Official Gazette*, direct.

4. That under this Act no shop shall carry on its transactions with customers after 8 p.m.

5. If any shop carries on transaction after 8 p.m. it shall have to pay a fine of rupees five.

STATEMENT OF OBJECTS AND REASONS.

The aim and object of this Bill is to stop unnecessary and unfair competition to the utter deterioration of health and mind of both the employers and employees.

In Calcutta the Book Sellers Association transact no business after 8 p.m. and if other shops follow their example they too will be gainer.

The debtor shall be entitled to an order for refund of any amount, realised as interest, in excess of double the principal of the loan".

7. In sub-section (*1*) of section 9 the words "including an union court" shall be added after the words "apply in the prescribed manner to the lowest Civil Court."

STATEMENT OF OBJECTS AND REASONS.

1. Throughout the rural areas of Bengal excessive rates of interest are realised by usurers by advancing loans of grains and other crops especially food grains, instead of money. It is highly necessary to bring those loans within the purview of the Bengal Money-Lenders Act, 1933.

2. High and exorbitant rates of interest are at the root of many evils. It is one of the principal causes of the chronic indebtedness of our people. Once a man borrows money at high rate of interest it becomes well-nigh impossible for him to keep pace with interest, and in spite of his exertions, honesty and will to pay, the debtor becomes inextricably entangled. The debtor who borrows money at high rates of interest cannot make any headway with the borrowed capital in trade, industry and agriculture.

3. Due to high rates of interest money-lending proves to be the most lucrative profession. It is the surest, safest and speediest way to become rich. So most monied men prefer this profession to trade and industry with their consequent risks. Capital of the country flows to this direction to the great detriment of industry and commerce. There is plethora of money in one business. Consequently credit and facility for borrowing becomes too cheap. People get loan only for the asking and they turn improvident and forget to live within means. As a matter of fact too cheap credit and easy facility for borrowing does even more harm than high rates of interest. The one creates a craze for borrowing and the other does so for lending, both bringing about ultimately the crash which grinds down all the debtors and creditors equally. So in order to give relief to the debtor and creditor, to release more resources of the country for trade and industry, to avoid future crisis and to bring about collective prosperity of our people the rate of interest should be further lowered as proposed in the Bill.

4. According to the Money-Lenders Act, a money-lender cannot realise more than the principal as arrear of interest. The Act accepted the principle that interest must not exceed the principal. But difficulties have cropped up in cases of loans where vast sums have been realised as interest before the institution of the suits. As the words arrear of interest do not include interest already realised debtors cannot derive the full benefit of the Act and they suffer great loss. So it is necessary to amend the Act in the manner appearing in the Bill.

5. Amendment of section 9 is intended to give facility to the rural debtors to deposit their dues in union courts which will prove less costly and troublesome.

5. To section 6 of the said Act, the following shall be added, namely :—

"Provided that in counting the arrears, the Court shall always have regard to the payments previously made."

STATEMENT OF OBJECTS AND REASONS.

To control the money-lending business the Bengal Money-Lenders Act of 1933 was passed not without some glaring defects for which the country feels so keenly, particularly at the time of awful economical depression. To remove those defects and to redress the grievances of the debtors thereby, at least to some extent as well as for the provision of more effectual control of money-lending in Bengal, the amendment is urgently required in the country without any further delay.

[*Cf* Act XVIII of 1879, s. 36(*6*).]

STATEMENT OF OBJECTS AND REASONS.

In paragraph 16, Chapter VIII, of their Report, the Civil Justice Committee refer to the practice under which some pleaders employ so-called clerks whose real function is not so much to do work as to get work for their masters and whose main source of remuneration consists in payment by or exaction from their masters' clients. In paragraph 20 of the same Chapter, the Committee also state that notwithstanding the existence of provisions to the contrary in the Legal Practitioners' Act, the employment of "touts" is the evident and immediate cause of many false claims and defences and of much waste of time in courts. It is also a known fact that in rural areas the distress occasioned by the economic depression is not infrequently aggravated by the activities of persons interested in fostering unnecessary litigation and that the provisions of the Legal Practitioners' Act, as it stands, are ineffective for the purpose of enabling the courts to exercise any proper control over such persons.

With a view to regulate the employment of clerks of Legal Practitioners and also to suppress touts in courts and certain offices in Bengal where they frequent without interfering with the legitimate work of persons engaged in *bona fide* and necessary business this Bill has been prepared. It is a self-contained measure amending where necessary the following Acts in the manner indicated below :—

1. *The Legal Practitioners Act, 1879.*—(*a*) A new chapter has been inserted after chapter VI, empowering the High Court and the Chief Controlling Revenue Authority to make rules regarding the employment, etc., of clerks of legal practitioners and to determine the conditions under which persons acting as such without licences shall be deemed to be "touts". The definition of "tout" in section 3 has been amended accordingly.

(*b*) Section 36 has been amended so as to provide more effectively for dealing with a proclaimed tout who is found within the precincts of a court after being excluded therefrom by an order under section 36(4). By his presence there without the necessary permission from the presiding officer, he shall be deemed to be acting as a tout under the provisions of section 36(6). He may be arrested by a written order of the presiding officer and may be summarily dealt with if he admits the offence ; otherwise he is to be sent before a magistrate.

2. *The Indian Registration Act, 1908.*—(*a*) A definition of "tout" has been included in section 2, to cover the class of persons who without a proper licence habitually frequent the precincts of a Registration office to obtain employment in connection with registration business. Provision is made in section 80G for the Inspector-General of Registration to make rules (subject to the approval of the Provincial Government) for licensing deed-writers and others who have to frequent Registration offices in the course of their business, and for declaring under what conditions persons shall be deemed to be touts. The definition of 'tout' in section 2 has also been framed to include this class.

(*b*) Provision has been made in a new chapter XIIIA to include the provisions of the Legal Practitioners' Act relating to "touts" and also other provisions similar to the amended provisions above-noted, so as to apply these to "touts" as defined in section 2 of the Registration Act.

(*c*) The Inspector-General of Registration is also by section 80G empowered to make rules regarding licences for village deed-writers (not working in the precincts of Registration offices) and determining the conditions in which they shall be deemed to be touts.

3. *The Workmen's Compensation Act, 1923.*—(*a*) For the purposes of this Act "tout" has been defined to include "tout" as defined in clause (*a*) of section 3 of the Legal Practitioners' Act, and also a person who habitually frequents the precincts of the court of a Commissioner for the purpose of procuring work as an agent under section 24 or otherwise than as a party or witness in any proceedings in such court or as a *bona fide* agent appointed under section 24.

(*b*) By section 31A the provisions of section 36 of the Legal Practitioners' Act have been applied directly to "touts" as defined in this Act.

4. *The Bengal Village Self-Government Act, 1919.*—(*a*) 'Tout' has been defined by new section 4 (9*a*) as a person who habitually frequents the precincts of a union bench or court except for the purpose of his own case or as a *bona fide* agent of a party under section 97. A proclaimed tout is however barred by new section 97 (2*a*) from appearing as an agent under section 97.

(*b*) A series of sections 98 A, B, etc., have been added to apply the suitable provisions of the Legal Practitioners' Act to "touts" as defined in the Bengal Village Self-Government Act.

5. *The Bengal Wakf Act, 1934.*—For the purposes of this Act "tout" has been given the same definition as in the Legal Practitioners' Act, and the provisions of that Act have been applied by section 43A to the office of the Commissioner of Wakfs.

6. *The Bengal Agricultural Debtors Act, 1935.*—Provisions similar to those proposed in the Bengal Village Self-Government Act, 1919 (*vide* paragraph 4 *supra*), are introduced into this Act.

STATEMENT OF OBJECTS AND REASONS.

The Acts now contained in the nine published volumes entitled "Unrepealed General Acts of the Indian Legislature" have recently been subjected to considerable textual modification by the Government of India (Adaptation of Indian Laws) Order, 1937, made in pursuance of section 293 of the Government of India Act, 1935. The task of issuing a revised edition of these Acts is now being taken in hand, and the present is an appropriate occasion for the repeal of such of the enactments appearing in those volumes as were concerned merely with the making of textual alterations in previously existing Acts. The textual alterations so made are incorporated in the parent Act as soon as the amending Act comes into force, and are printed in the text in all subsequent editions, footnotes being usually added to explain the origin of the changes. It has hitherto been the general practice to print the amending Acts themselves in these volumes, although in some cases economy of space is effected by omitting portions of the text of the amending Act and inserting instead a reference to the parent Act where the amendment has already been shown.

Much printing space is occupied and no useful purpose is served by the reproduction in the volumes of the General Acts of amending Acts of the nature referred to, and it is proposed in future not to include them. They are published under their annual serial number in the volume of Statutes of the year in which they are passed and are easily found there if required.

But the insertion recently of section 6A in the General Clauses Act, 1897, has abolished all reason for keeping amending Acts of this nature alive. Notwithstanding the repeal of such Acts amendments made by them continue in existence. Henceforward they may be repealed in the same way that enactments repealing previous Acts are now habitually repealed under cover of section 6 of the General Clauses Act.

The present Bill contains proposals for the repeal of several hundred enactments, including Acts, Regulations and sections of Acts or Regulations, which were passed to make textual alterations in previous enactments. A few other enactments are included which are either themselves repeals or are enactments the effect of which is spent, such as the Excess Profits Duty Act, 1919. These have hitherto been overlooked in the annual Repealing and Amending Acts. Certain Acts which have, by virtue of the Government of India (Adaptation of Indian Laws) Order, 1937, ceased to have effect are now formally repealed.

The Bill does not include for repeal any Act or Regulation passed later than the close of the year 1935; that is to say, no enactment is to be repealed unless it has been in existence for two complete years. During this period publication of the enactment in the volume of Statutes of the year has been secured, its existence has had ample time to be appreciated, and there has been ample opportunity for any modifications introduced by it in previous Acts to be noted and incorporated in their proper places.

Nor does the Bill include for repeal any enactment affecting a law now limited in its operation to Burma or to Aden.

Some of the enactments now proposed for repeal—particularly those of earlier date than the successive General Clauses Acts which provide generally for matters such as the interpretation of references to and the saving of appointments made and other things done under Acts superseded by other Acts—contain saving clauses. The present Bill contains in clause 3 a precautionary provision preserving the effect of those savings.

Clause 4 has been added to the Bill because section 6A of the General Clauses Act, 1897, while declaratory of the principle that would probably be applied in determining the effect of the repeal of an amending Act making textual alterations in a provincial Act, does not expressly cover central Acts or Regulations amending provincial Acts. Some of the enactments included for repeal in this Bill are of this nature.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 13th September, 1937:—

L. A. BILL No. 35 OF 1937.

A Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898, for the purpose hereinafter appearing; It is hereby enacted as follows:— XLV of 1860. V of 1898.

Short title.

1. This Act may be called the Criminal Law Amendment Act, 1937.

Amendment of section 176, Act XLV of 1860.

2. To section 176 of the Indian Penal Code, the following shall be added, namely:— XLV of 1860.

"or if the notice or information required to be given is required by rules made by the Provincial Government under the provisions of sub-section (*3*) of section 565 of the Code of Criminal Procedure, 1898, relating to the notification of residence or change of or absence from residence by released convicts, with imprisonment of either description for a term which may extend to six months, or with fine which may extend to one thousand rupees, or with both". V of 1898.

Amendment of section 565, Act V of 1898.

3. Sub-section (*5*) of section 565 of the Code of Criminal Procedure, 1898, shall be omitted and sub-section (*6*) of that section shall be re-numbered as sub-section (*5*). V of 1898.

STATEMENT OF OBJECTS AND REASONS.

Under section 565 of the Code of Criminal Procedure, 1898, any person who has been convicted more than once of certain offences—*e.g.*, theft, robbery, dacoity, coining—and sentenced for a term of three years or upwards can be ordered to report his residence or any change of or absence from his residence to the police for a maximum period of five years after his release. A breach of this order is punishable under section 176 of the Indian Penal Code with simple imprisonment for a term which may extend to six months, or with fine which may extend to one thousand rupees, or with both. It has been reported that this punishment does not act as a deterrent to habitual offenders and that orders under section 565 of the Code of Criminal Procedure are frequently contravened. This Bill proposes to amend section 176 of the Indian Penal Code so as to make a specific provision therein for this offence and to alter the punishment therefor into one of imprisonment of either description for a term which may extend to six months or a fine which may extend to one thousand rupees or both. Consequential amendments are also made in sub-sections (*5*) and (*6*) of section 565 of the Code of Criminal Procedure.

"(*c*) has been found by a civil court to have taken bribe or to have committed extortion."

Amendment of section 12

3. In section 12, in clause (*a*) of sub-section (*1*) after the word "offence" the words "or an offence which involves moral turpitude" shall be inserted, and after clause (*e*) of this sub-section the following clause shall be inserted, namely :—

"(*f*) who has been found by a civil court to have taken bribe or to have committed extortion" and in sub-section (*2*) after the letter and brackets "(*c*)" the words, letter and brackets "or clause (*f*)" shall be inserted.

Amendment of section 14.

4. In section 14 of the said Act, for the words "the residue of his term of office as a member of the Union Board" the words "one year" shall be substituted.

Amendment of section 16.

5. In section 16 of the said Act, in clause (*i*) of sub-section (*1*) after the word "offence" the words "or an offence which involves moral turpitude" shall be inserted, and after clause (*iii*) of this sub-section the following clause shall be inserted, namely :—

"(*iv*) who has been found by a civil court to have taken bribe or to have committed extortion" and in clause (*i*) of sub-section (*2*) of this section, after the word "offence" the words "or an offence which involves moral turpitude" shall be inserted, and

after clause (*iii*) of this sub-section the following clause shall be inserted, namely :—

"(*iv*) who has been found by a civil court to have taken bribe or to have committed extortion."

STATEMENT OF OBJECTS AND REASONS.

There are localities in this province where Union Boards have become burdens to the union ratepayers and they really want abolition of these Boards. The mover is of opinion that the term of office of Presidents and Vice-Presidents should be shortened. If they are elected after every twelve months it is expected that the public will have a better control over them against the danger of corruption. The mover wants to remind the legislators that even in Calcutta Corporation, the highest self-governing institution of this country, the Mayor and the Deputy Mayor are elected annually. Another point is that sections 10A, 12 and 16 should also be amended to make the sections more comprehensive and effective regarding disqualifications for membership or for the office of a President or Vice-President.

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 20th September, 1937:—

C. OF S. BILL No. 4 OF 1937

A Bill relating to the Shebaity right and the office of Shebaits and the devolution of such right or office in Hindu Debutter Endowments in favour of family deities.

WHEREAS it is expedient to make provision relating to the Shebaits of a private Religious or Debutter Endowment created by a person professing Hindu faith; It is hereby enacted as follows:—

1. This Act may be called Shebaity Act of 1937.

It extends to whole of British India. It applies to Debutter or private Religious Endowment.

It shall come into force immediately on its publication in the Official Gazette.

2. The founder of any such Debutter Endowment shall be entitled to provide for devolution of the office of a Shebait and of the Shebaity right regardless of the law of inheritance.

3. In the absence of any provision made by the founder as aforesaid or any usage prevailing in such Endowment or in the founder's family, the devolution of such office or of such right will follow the law of inheritance with all incident of property ancillary thereto except as hereinafter provided.

4. Where devolution laid down by the founder is vested in another family and for any reason whatsoever it fails, the Shebaity right and the office shall revest in the founder's family and will thereafter follow the law of inheritance.

5. A person who has changed religion or professes another faith or has been excluded from the communion of Hindu faith or religion will, however, be excluded from inheriting such right or office or from enjoying such right or continuing in such office.

6. The office of a Shebait and the Shebaity right shall not be transferable or liable to attachment under any decree made against a Shebait.

7. A Shebait shall, however, be entitled to renounce his office or his Shebaity right, in writing, in favour of the next heir or successor and on execution of such writing his heir or successor shall become entitled to such office and the said right.

8. The deity of any such Endowment will be treated as a Corporation Sole and shall by the name of the deity sue or be sued.

9. In all suits or proceedings in which the deity is made a party, the Shebait shall be the recognised agent of the deity.

10. Where there are more than one Shebait, any one of them may be nominated as such recognised agent by all or the majority of them.

11. Where however the interest of such Endowment conflicts with that of the Shebait or where the Shebaits or the majority of them failed or refused to institute a suit or proceeding or defend any, any Court or Officer, having jurisdiction over the subject-matter of the dispute and on being satisfied that a *prima facie* case or defence has been made out upon an enquiry held or otherwise, shall nominate a person as the recognised agent of the deity for the purpose of such suit or proceeding

12. Such recognised agent of the deity shall be entitled to be reimbursed for all costs incurred by him out of the assets of the Endowment if he is appointed as such by the Court or Officer as aforesaid or if such suit or proceeding be *bona fide* instituted or defended in the interest of the Endowment or if the Court or Officer before whom such suit or proceeding is heard and decided certifies that such costs were reasonably incurred.

13. Nothing hereinbefore contained shall apply to or in any way affect—

(*a*) the right or liability of a Shebait as a Manager or Trustee of the estate of the deity,

(*b*) any suit or proceeding *inter se* amongst the Shebaits for partition of *palas* or turn of worship or suits of a like nature,

(*c*) any suit or proceeding instituted or taken by a person for establishing his claim to a Shebaity right or office or possession thereof,

and it be provided that the deity shall not be made a party in such suits.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove doubts and difficulties that have lately arisen relating to private Debutter or religious endowments by persons professing Hindu faith. Such difficulties have been largely due to the recent decision of the Full Bench of the Hon'ble High Court of Calcutta in Monohar Mukherjee against Bhupendra Mukherjee, I.L.R., 60 Calcutta 452, which decision has since been affirmed by the Lords of the Judicial Committee of His Majesty's Privy Council in Ganesh Chandra Dhur against Lal Behari Dhur, 41 Cal. Weekly Notes, Page I. Before the Judicial Committee affirmed the decision of the Full Bench in Monohar Mukherjee's case, it was freely discussed amongst the litigants and lawyers that that case was not correctly decided.

In fact if one refers to the judgment of the then Chief Justice (The Right Hon'ble Sir George Claus Rankin) there was every foundation for entertaining such a view. The decision of the Privy Council has set at rest such doubts and the effect thereof will be far reaching.

The founder of an endowment hardly contemplated that the line of succession to the office of a Shebait will be not what he wanted to be but they must be as it has been decided in the two cases mentioned above.

When Sir Lancelot Sanderson and his colleague on the Bench decided some years ago that the founder of such an endowment is entitled to authorise his trustee and/or shebait to appoint his successor, various documents had come into existence wherein such right had been given through a medium of trust. But the decision of the Lords of the Judicial Committee has shaken the foundation of even such a right which the founder was held to possess.

It will be and is iniquitous to debar a founder to decide who shall be the Shebait of an endowment he was creating. Serious other difficulties may also arise as an offshoot of the said Full Bench decision or that of Their Lordships of the Judicial Committee, *viz.*, that the Shebaity right is property and is descendible on the heirs.

No one ever contemplated that by giving such right of property to the shebait one would be bringing in persons who never professes Hindu faith or had become a convert to other religion.

The Caste Disability Removal Act of 1850 did away with the forfeiture of the right of inheritance when a person renounced his religion or excluded from the communion of that religion. It is needless to point out that the said Act which is commonly known as Freedom of Religion Act is bound to come into operation in case of devolution of Shebaity right. It may be doubted whether the old decisions reported in 11 M.I.A. 405 or in 13 I.A. 100 will apply in private Debutter endowments, when one is told that Shebaity right is property.

The present Bill gives a right to the founder to nominate persons or a line of succession in any manner he likes. No one can question or dispute that it is and should be a natural right and a person ought to possess such power when he establishes any such private Debutter or religious endowment. After all one must not forget that the founder is the best person to determine in whose custody his family Idol should be or properly looked after or the estate which he dedicates, to be fully preserved for the benefit of the deity.

The Bill also attempts to remove the difficulties which litigants have to face of late in the matter of institution of suits by and against the deity. In Jogendra *versus* Hemanta Kumari Debi the Lords of the Judicial Committee held that the right of suit is vested in the Shebait and not in the Idol. The Allahabad High Court also held the same view (see 19 All. 330) but expressed a different one in 33 All. 735, and held that the Idol is the person to bring a suit or against whom the suit has to be brought. In Promotho *vs.* Prodymna, 52, I.A. 245, the Lords of the Judicial Committee insisted that the interest of the deity should be looked after by a disinterested next friend appointed by the Court.

To obviate such difficulties and inconsistencies provisions have been made treating the deity as a juristic person. But as the Idol cannot physically act, provisions for the appointment of a recognised agent which will enable him to have the conduct of the litigation and conform to the provisions of the Civil Procedure Code. Provisions made in the Bill will be an effective check on unnecessary litigations resulting in the estate being swallowed up by costs of litigation. It is also expected to remove difficulties in various other ways in the manner of institution of suits by or against the estate of the deity. There is a further provision in the Bill recognising the present law against transfer by a Shebait of their rights save and except when it is in favour of the next heir or successor. A Shebait may become very old and incapable to look after the religious endowment due to age or other infirmities. It is not well settled law yet that he can retire therefrom in favour of the next heir or successor. Sir George Rankin doubted whether a Shebait could do so. To remove such doubt, a provision has been incorporated with the reservation which may be beneficial to every one concerned.

(*2*) The Committee shall every year prepare a report on the administration of the Durgah, which, together with the accounts of the Durgah and the report of the auditor thereon, shall be published in the Gazette of India."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to remove inconsistencies and anomalies in the Act No. XXIII of 1936 for the administration of the Durgah and the Endowment of the Durgah of Khawaja Moinud-Din Chishti, generally known as Durgah Khawaja Saheb, Ajmer. The final reading of the Bill which became that Act was carried in a great hurry and the Bill as a whole was not scrutinised either by the official draftsman or by non-official members.

As a result the Act contains a number of inconsistencies, grammatical faults and unworkable provisions. The amendments effected by this Bill are explained in detail in the Notes on Clauses appended below. They are mostly of a verbal character. Changes of substance have been avoided; but, where they occur, they are wholly uncontentious.

ZIAUDDIN AHMAD.

ALIGARH;

August, *1937*.

NOTES ON CLAUSES.

Clause 2.—An Act of the Central Legislature cannot empower the Committee to take action outside British India or to enforce outside British India action taken within British India. The reference, therefore, to "India" in section 2 of the Act is either useless or *ultra vires* and has been omitted.

Clauses 3 and 4.—Section 5 of the Act has been generally revised and as redrafted incorporates the essential provisions of existing sections 6, 7 and 8, which have therefore been omitted from the Act. [Section 7, in particular, is violently inconsistent with clause (*c*) of existing section 5.] The provision that all members should be Hanafi Muslims has been brought to the beginning of the section. In clauses (*e*) to (*m*) of sub-section (*1*) the words "Legislative Assembly" have been employed in relation to Provinces with a single Chamber Legislature, and the words "Provincial Legislature" in relation to other Provinces. This variation of language, read with proposed section 14 (clause 8 of the Bill), secures that the election will be by both Chambers of the Legislature where there are two such Chambers.

Sub-section (*2*) reproduces existing section 8 which employs the words "for election", which would seem to exclude the members referred to in clauses (*a*), (*b*), (*n*) and (*o*) of section 5 from the requirement of literacy. This has been remedied.

Sub-section (*3*) is designed to reproduce in clearer form the last paragraph of existing section 5.

Clause 5.—The amendment to sub-section (*1*) of section 10 is necessary because no member is "elected" under clause (*a*) or clause (*b*) of section 5. Moreover, the expression "items" is not in accordance with drafting usage.

Clause 6.—The amendment of sub-section (*3*) of section 11 is partly grammatical "That" is superfluous and "will" should be "shall". The expression "its manager" is ambiguous, as it could be referred to either "The Committee" or "Durgah Endowment". "Manager of the Durgah" appears, from a reference to clause (*k*) of sub-section (*2*) of section 15, to be the correct form.

Clause 7.—The requirement in section 12 that all actions of a standing or special committee must be confirmed *ex post facto* by the Committee is bound to prove unworkable. The Bill substitutes a power to impose conditions on delegations of powers whereby the same result can be secured where desirable.

Clause 8.—Clause (*b*) of section 14 is covered by clause (*a*). It seems advisable not to require the Chief Commissioner to make rules in respect of elections held by the Legislature, as he is not likely to be aware of the conditions and practice in the various Legislatures and it would be preferable to leave these matters to the Presidents concerned. (When existing section 14 was drafted no elections by Legislatures were contemplated in the Bill as introduced.)

Clause 9.—It is difficult to understand exactly what classes of dispute are intended to be covered by section 16. Moreover, the words "aggrieved party" are very ambiguous and the "rank" of a District Judge is an indeterminate quantity. The redraft avoids these objections. The importation of the provisions of the Indian Arbitration Act, 1899, seems clearly undesirable. That Act is primarily meant for Presidency towns only and is not understood in the Mofussil, where arbitration is governed by the Civil Procedure Code. In any case, it seems desirable not to attach complicated legal procedure of any sort to a process of arbitration provided in the Act in the interests of simplicity and expedition. The Bill effects this.

Clauses 10 and 11.—The amendments are merely grammatical.

Clause 12.—The qualifications for the auditor in sub-section (*1*) of section 20 are not expressed in statutory terms, whatever their popular significance; and the Bill substitutes the recognised qualification for auditors of company accounts.

Sub-section (*2*) of section 10 provides no indication of how publication is to be effected. This has been done.

(*a*) to sub-section (*1*) the words "or of insects generally or any class of insects" shall be added; and

(*b*) in sub-section (*2*), after the word "articles" the words "or any insect or class of insects" shall be inserted.

Insertion of new sections 4A, 4B, 4C and 4D in Act II of 1914.

5. After section 4 of the said Act the following sections shall be inserted, namely:—

Power of Central Government to regulate or prohibit transport from province to province of insects or articles likely to infect.

"4A. The Central Government may, by notification in the Official Gazette, prohibit or regulate, subject to such conditions as the Central Government may impose, the export from a province or the transport from one province to another province in British India of any article or class of articles likely to cause infection to any crop or of insects generally or any class of insects.

4B. When a notification has been issued under section 4A, then, notwithstanding any other law for the time being in force, the person responsible for the booking of goods or parcels at any railway station or inland steam vessel station,—

Application of section 4B to articles exported to Indian States.

4C. Where, by or under any law in force in the territories of any Indian State, the import into that State of any article likely to cause infection to any crop or of any insect has been prohibited, the Central Government may, by notification in the Official Gazette, declare that the provisions of section 4B shall apply in respect of any such article or insect consigned from any place in British India to any place in that State.

Power of Central Government to make rules.

4D. The Central Government may, by notification in the Official Gazette, make rules prescribing the nature of the documents which shall accompany any article or insect the export or transport whereof is subject to conditions imposed under section 4A, or which shall be held by the consignor or consignee thereof, the authorities which may issue such documents and the manner in which the documents shall be employed."

Amendment of section 5, Act II of 1914.

6. In sub-section (*1*) of section 5 of the said Act, after the word "destruction" the words "of any insect or class of insects or" shall be inserted and after the word and figure "section 3" the words, figure and letter "or under section 4A" shall be inserted.

Insertion of new section 5A in Act II of 1914.

7. After section 5 of the said Act the following section shall be inserted, namely :—

Penalties.

"5A. Any person who exports any article or insect from a province or transports any article or insect from one province to another in British India in contravention of a notification issued under section 4A, or attempts so to export or transport any article or insect, or exports or attempts to export from British India to an Indian State any article or insect in respect of which a notification under section 4C has been issued, and any person responsible for the booking of goods or parcels at a railway or inland steam vessel station who knowingly contravenes the provisions of section 4B shall be punishable with fine which may extend to five hundred rupees and, upon any subsequent conviction, with imprisonment which may extend to three months, or with fine which may extend to two thousand rupees, or with both."

STATEMENT OF OBJECTS AND REASONS.

Sub-section (*1*) of section 3 of the Destructive Insects and Pests Act, 1914, confers upon the Central Government the power to prohibit or regulate import into any part of British India of any article or class of articles likely to cause infection to any crop. Power is, however, not available for the prohibition or regulation of movement from one part of British India to another of living plants likely to cause infection to any crop. Such power is particularly needed to prevent the further spread of "San Jose Scale" (Aspidiotus Perniciosus) which is a serious fruit pest and is known to exist in certain parts of the country. Central control, as contemplated in item 30 of Part II of List III of the Seventh Schedule of the Government of India Act, 1935, is considered desirable and one of the objects of the Bill is to provide for such control. The Bill is also intended to enable the Central Government to exercise control over the importations, and movement from one province to another province, of live insects which are or may be destructive to crops in other ways than by causing infection to them. As the Destructive Insects and Pests Act, 1914, stands at present, such insects do not come within its scope.

The following Bill was introduced in the Legislative Assembly on the 27th September, 1937:—

L. A. BILL No. 39 OF 1937.

A Bill further to amend the Patna University Act, 1917.

WHEREAS it is expedient further to amend the Patna University Act, 1917, for the purpose hereinafter appearing; It is hereby enacted as follows:— XVI of 1917.

Short title.

1. This Act may be called the Patna University (Amendment) Act, 1937.

Amendment of section 11, Act XVI of 1917.

2. In section 11 of the Patna University Act, 1917, as amended by the Government of India (Adaptation of Indian Laws) Order, 1937, for the words "or of Orissa" the following words shall be substituted, namely:— XVI of 1917.

"or in the Province of Orissa exclusive of those areas comprised therein which were transferred from the Presidency of Madras by the Government of India (Constitution of Orissa) Order, 1936".

STATEMENT OF OBJECTS AND REASONS.

Section 11 of the Patna University Act, 1917 (XVI of 1917), as adapted by the Government of India (Adaptation of Indian Laws) Order, 1937, has the effect of extending the jurisdiction of the Patna University to the whole of the Province of Orissa as it stood on 1st April, 1937, and consequently of removing the jurisdiction of the Andhra University over the areas which were transferred to that province from the Presidency of Madras by the Government of India (Constitution of Orissa) Order, 1936. This result was neither intended nor foreseen. It is necessary to rectify the position and the Bill is designed to achieve this object.

From—L. H. Colson, Esq., C.I.E., Commissioner of Police, Calcutta,

To—The Secretary to the Government of Bengal, Department of Public Health and Local Self-Government (Municipal).

I have the honour to submit herewith the report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1937, as drawn by Mr. A. Frederick, M.I. FIRE E., Chief Officer, Calcutta Fire Brigade.

No. F. B. 854, dated Calcutta, the 11th September 1937.

From—A. Frederick, Esq., M.I. FIRE E., Chief Officer, Fire Brigade, Calcutta,

To—The Secretary to the Government of Bengal, Department of Public Health and Local Self-Government (Municipal).

(Through L. H. Colson, Esq., C.I.E., I.P., J.P., Commissioner of Police, Calcutta.)

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ended 31st March 1937.

The work of the department throughout the year has been normal.

Financial Statement.—The Statement of Receipts and Expenditure and payments made by the municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act I of 1893 is given in Appendix I.

The cost of maintenance of the Fire Brigade is derived from contributions by (*a*) the Calcutta Municipality, (*b*) the Howrah Municipality and (*c*) the Garden Reach Municipality contributing at the rate of 83·5 per cent., 14 per cent. and 2·5 per cent., respectively.

Fees for licensed warehouses are charged under section 10 of the Licensed Warehouse and Fire Brigade Act I of 1893, and are levied at 10 per cent. of the annual valuation of warehouses, subject to a maximum of Rs. 1,500 per warehouse per annum, and the income thus derived provides the 50 per cent. of the cost of the upkeep of the Fire Brigade under the Act.

Fires, etc.—The total number of calls to fires or supposed fires was 547 being a decrease of 77 as compared with the previous year. The actual number of fires attended was 459 which shows a decrease of 79 as compared with the previous year, and the number of fires classed as serious (*i.e.*, over Rs. 20,000 damage per fire, see Appendix III) was 17 as compared with 22 during the previous year.

The following statement shows the hours when the calls were received:—

The following is a list of the principal appliances now in commission by the Calcutta Fire Brigade:—

Twenty motor fire engines as follows:—

It is estimated that the motor fire appliances travelled 11,124 miles during the year to and from calls as compared with 19,333 miles in the previous year.

The total number of pumping hours at fires during the year was 2,280 hours 30 minutes as compared with 1,496 hours 30 minutes in the previous year.

Fire Stations.—Appendix IV gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements.

Staff.—The strength of the Brigade during the year was 272 as detailed below:—

One Chief Officer, 1 Second Officer, 1 Chief Engineer, 5 Station Officers, 8 Engineers, 7 European firemen,
1 Warehouse Inspector, 4 clerks, 1 Store-keeper, 3 telephone operators, 2 carpenters, 2 lathe mechanics, 1 fitter, 1 blacksmith, 1 tinsmith, 10 Indian drivers, 1 head tindal, 21 tindals, 178 khallasis and 13 menial employees.

The conduct and discipline of the staff throughout the year have been exemplary.

Fatalities and accidents.—Appendix VI gives short reports of fires and special occurrences involving loss of life or serious accidents.

The number of lives lost during the year under review is 13 as compared with 9 in the previous year.

Seven persons were injured at fires as compared with 31 in the previous year.

I am glad to report that no serious accidents occurred during training recruits, or at drill.

In all cases, where necessary, first-aid was rendered by the Fire Brigade and the injured persons conveyed to hospital by motor ambulances.

Water supply.—In Calcutta water for fire extinguishing is obtained from the unfiltered water-supply system maintained by the Corporation of Calcutta with pumping stations located on the banks of the river Hooghly at Mullick Ghat and Watgunge.

Fires in Cossipore-Chitpur and adjoining areas are dealt with water supplied from ponds or tanks, many of which are replenished only by rainfall. The condition of water-supply in this area is serious and needs immediate attention owing to the many fire risks, comprising jute presses, warehouses, dwellings, shops, etc.

The jute press and warehouse owners have to be compelled to provide an alternative water supply for fire extinguishing, such as installing sprinklers, or pumps and mains with an intake from the river, and if a proper water supply was provided the above restrictions would not have been necessary.

Similar conditions prevail also in Howrah and although the municipality has installed some hydrants on the filtered water supply for being used at fires these are not sufficient. The question of filling a pond or tank is as important in Howrah as in Cossipore, and the provision of a proper water-supply for fire extinguishing should receive early attention.

Fire float.—The fire float (5,000 gallons per minute capacity) is stationed on the river opposite the Prinsep's Ghat. During the year under review it has responded to 15 calls as compared with 9 calls in the previous year.

Street fire alarms, telephones and electrical communications.—I am pleased to record that the Bengal Telephone Company has done excellent service by maintaining the fire alarm system, etc., and rendering assistance when required.

Inspection Department.—The majority of theatres, cinemas and other places of public amusement, with few exceptions, have no serious fire risks.

There were no serious fires during the year under review in theatres, cinemas or places of public amusement.

In connection with the Licensed Warehouse and Fire Brigade Act I of 1893, 6,264 inspections of warehouses have been made during the year. Four hundred and twelve applications and complaints have been attended to and disposed of. One hundred and fifteen prosecutions were made under section 14 of Act I of 1893 which resulted in 63 persons being fined, the fines aggregating in all Rs. 634. Twenty-nine persons were warned and discharged and 23 cases were withdrawn.

General.—The Calcutta Fire Brigade protects the city of Calcutta and the municipalities of Howrah and Garden Reach, and may attend fires outside the boundaries of the above, but not exceeding a radius of 6 miles from Fire Brigade Headquarters, provided appliances can be spared, and on payment of a prescribed fee. The total area protected is approximately 120 square miles, comprising a population of over 2,000,000 persons.

Fire Brigade Headquarters is still located in premises rented for that purpose. A scheme for building an up-to-date and efficient headquarters on Free School Street has been approved by the Calcutta Corporation and the Howrah Municipality. The approval of Garden Reach Municipality is being awaited, and as soon as it is received the matter will be submitted to Government for sanction. It is expected that the scheme will be put into operation during the year 1937-38.

Under arrangements with the Government of Bengal the Indian Iron and Steel Co., Ltd., will take for free training from the beginning of 1938 eight apprentices in their workshops at Hirapur to be selected from a list of suitable Bengali candidates nominated by the Director of Industries, Bengal. The period of training will be for 2½ years during which the following rules of the Company will apply:—

1. Each apprentice will be responsible to the person in charge of the sub-section to which he is posted in a department and will at all times observe the rules and regulations existing in that department.
2. A higher apprentice may be employed on shift work if it is considered necessary during his period of training, provided that he is over 18 years of age.
3. An apprentice will not necessarily be kept on one particular job, but by changes, where advisable, will be trained for the job for which he is best suited.
4. A higher apprentice will be considered as on the establishment staff in the department in which he is being trained and his attendance will be recorded on the establishment staff time clock.
5. Each higher apprentice may be required, if the Company considers it necessary, to attend any evening classes or other instructional classes held by the Company. Irregularity in attendance or unsatisfactory results will render the apprentice liable to dismissal.
6. As far as leave, medical attendance and other amenities are concerned apprentices under this scheme will be treated under the same rules as those governing establishment staff.
7. On completion of the apprenticeship course, the Company may at its discretion continue to employ an apprentice, but does not bind itself to do so.

8. During the period of training the allowances for higher apprentices will be:—

First year—Rs. 30.
Second year—Rs. 35.
Third year—Rs. 40.

Bills introduced in the Bengal Legislative Assembly; Reports of Select Committees presented or to be presented to that Assembly; and Bills published before introduction in that Assembly.

BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.

NOTIFICATION.

No. 5515L.A. — 13th December, 1937. — In pursuance of the provisions of rule 21 of the Bengal Legislative Assembly Rules, the following Bill which was introduced in the Bengal Legislative Assembly on the 16th September, 1937, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE STATE PROVISION BILL FOR VETERINARY HOSPITALS AND STUD BULLS, 1937.

A

BILL

to provide for the establishment and maintenance of Veterinary Hospitals and stud bulls in all District Headquarters for the treatment of cattle and for improving the breed of livestock in Bengal under the control and supervision of the Veterinary Department.

WHEREAS it is expedient to make provision for establishing Veterinary Hospitals and maintaining stud bulls in all the District Headquarters of the Province.

It is hereby enacted as follows :—

1. (*a*) This Act may be called the State Provision Act for Veterinary Hospitals and Stud Bulls, 1937.

(*b*) It shall come into force on such date as the Governor may, by notification in the *Calcutta Gazette*, appoint.

2. In this Act, unless there is anything repugnant in the subject or context.

" District Headquarters " means headquarters of each district in the Province of Bengal.

" Livestock " means all kinds of cattle (*e.g.*, cow, bull, buffalo) horse, dog and other domestic animals including poultry.

" Livestock Expert " means a veterinary doctor with special knowledge in breeding of cattle and poultry.

3. A Veterinary Hospital equipped with all modern appliances and medicines and fittings is to be established as an adjunct to the Veterinary Dispensary already existing in each District Headquarters for accommodating and treating cattle and livestock at such nominal fees as will be accessible to the poor and placed under the Veterinary Department in the Province of Bengal.

4. Attached to the hospital there shall be an annexe where there shall be at least two pedigreed stud bulls for servicing cattle at nominal fees.

5. The officer in charge of the hospital shall be a fully qualified Veterinary Surgeon.

6. The officer in charge of the annexe shall be a qualified livestock expert who will be subordinate to the officer in charge of the hospital.

STATEMENT OF OBJECTS AND REASONS.

For want of Veterinary Hospitals in many districts poor agriculturists find it difficult to properly treat their cattle. Villagers residing far off from the District Headquarters cannot bring their ailing or diseased cattle to the dispensary regularly for treatment with the result that treatment is neglected and often not undertaken and consequently cattle mortality is on the increase. The provision for maintaining stud bulls as an adjunct to the hospital will remove the long-felt necessity for improving the breed of cattle in the Province. This will also combat the deterioration and degeneration of the breed that is taking place due to mating of imperfect and unhealthy cattle. The services of a livestock expert may also be utilised for touring the mufassal and advise the villagers generally with regard to the improvement of the breed of cattle.

48. Forms and rules before they are embodied in this Act, must be placed in both the houses of legislature. And any amendment or addition suggested by any of the houses shall be incorporated therein.

STATEMENT OF OBJECTS AND REASONS.

Bengal is an agricultural country. Her staple crop is jute. The importance of this fibre in the commercial market of the world is great. It has as yet no successful imitation or substitute. Jute is not grown in any other part of the globe, while the production of the two sister provinces of Assam and Bihar is negligible. So jute can safely be called the monopoly crop of Bengal. It is, therefore, meet that the jute-growers should get fair price to have sufficient margin over cost of production. But unfortunately due to financial distress and some other economic factors the price of jute sometimes falls below the cost of production, nowadays. Besides the fluctuation of market has become so very disturbing element in the life of the Bengal agriculturist that he can very seldom balance his family budget. To ensure him of some financial stability, a legislation like the present one has become a crying necessity and need.

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Permanent Settlement was granted to the landlords (zamindars) not merely for their own benefit but also for the benefit of *raiyats* of all grades. But the *raiyats* of Bengal have been still suffering in ways more than one. The Bengal Tenancy Act was passed in 1885 with the intention of protecting the *raiyats* from all unjust claims or exactions, but it is an irony of fate that many of the provisions of this very Act with all its past amendments militate against the principles and the intentions of the Permanent Settlement. Among the many grievances the rates of rents strike the most. The rents payable by the *raiyats* to-day are much beyond their economic capacity. Rents have increased to such exorbitant extent that the lands of the cultivators are rapidly passing away from their hands. As an instance, the revenue or *sadar-jama* of Aila Tearkhali and Fuljhuri estate in the district of Bakarganj is Rs. 372-3-8 while the total demands of rents from *raiyats* of this estate amount to Rs. 92,987-7-5. From such an instance one can very well realise the extent of demands on the *raiyats* in this province. This Bill has been drafted to mitigate many of the standing evils. The Bill provides that in the vast permanently-settled areas a landlord's claim of rent upon his tenant should not exceed, by more than 50 per cent. the revenue or rent which he himself pays to Government or his superior landlord and that the rates of rents in lands not subject to the Permanent Settlement should also be readjusted and reduced wherever required, according to the rates of rents payable for similar lands in the vicinity in permanently-settled area; and that rates of rents payable by all grades of tenants should be made permanent. Another feature of this Bill is that if the rates of rent are reduced on this basis the landlords should be exempted from paying any cesses whatsoever and the cultivating *raiyats* should pay such cesses in future on acreage basis instead of rupee basis. The Bill, among others, deals with the following salient points :—

Section 1 to be amended to extend the operation of this Act to all municipal and *chandina* lands in mufassal areas.

Sections 6-9 to be repealed to stop enhancement of rents of tenures.

Section 18 to be repealed as redundant.

Section 19 to be amended to make provision that every *raiyat* and under-*raiyat* should have occupancy right.

Sections 20-21 to be repealed as redundant.

Section 23A to be amended to extend the rights of *raiyats* and under-*raiyats* and to enable them to make all sorts of improvements on their lands including the erection of masonry houses and buildings for religious, educational and charitable purposes.

Sections 26D, 26F, 26G, 26H and 26J to be repealed to abolish the landlord's transfer fee and the right of pre-emption.

Sections 27-39 to be repealed as being inconsistent with Chapter VIII.

Sections 41-47 to be repealed to abolish non-occupancy right.

Sections 51A and 51B (new) to be inserted to reduce the excessive rents by proposing a new method of settling rates of rent for all grades of tenants in a permanently-settled area.

Section 51D (new) to be inserted to reduce the excessive rent by proposing a new method of settling rates of rent for all grades of tenants in areas not subject to Permanent Settlement.

Section 51E (new) to be inserted to make the rates of rent of all grades of tenants permanent.

Section 51F (new) to be inserted to exempt landlords from paying any cesses, if the rates of rent are reduced on the basis suggested in this Bill.

Section 51H (new) to be inserted for publishing the average rate of revenue per acre in each estate or *pargana* as ascertained from the settlement records.

Section 58 to be amended to penalise landlords refusing to grant rent-receipts.

Sections 76-83 to be repealed to abolish the provisions for enhancement of rent for improvements made by landlords.

Section 88 to be amended to abolish heavy mutation fee and simplifies the present complicated procedure for having a division of tenure or holding or distribution of rent thereof.

Sections 140B to 140D to be repealed as the rates of rent will be so much reduced that a table showing different rates of rents for different classes of land will not be necessary.

Sections 179, 180A-180C to be repealed as redundant and inconsistent.

Section 181 to be amended to give the holder of service-tenure the status of occupancy right.

Sections 182, 183 and 191 to be repealed as inconsistent.

Section 195A to be repealed as it deals with unjust landlord's fee or landlord's transfer fee.

(Clauses 9, 10.)

Amendment of section 88.

9. In section 88 of the said Act, the entire portion commencing from the beginning of the second proviso to the end of the section shall be omitted and the following shall be substituted namely :—

Repeal of chapter XIIIA.

10. The entire chapter XIIIA of the said Act regarding summary procedure for the recovery of rents under the Bengal Public Demands Recovery Act, 1913, shall be repealed.

Ben. Act III of 1913.

STATEMENT OF OBJECTS AND REASONS.

The system of landlord's transfer fee has made the transfer of *raiyati* lands rather rare. To facilitate easy transfer it should be altogether abolished. As regards enhancement of rent it can be said that at the present time the tenants are unable to bear the heavy burden of rent. If the provisions of the Bengal Tenancy Act are not extended to all the lands of the muffasal municipal areas also the growth of the muffasal towns will be much hampered. At the present time muffasal towns people are not getting the same privileges which other people are enjoying under the Bengal Tenancy Act. When there are sufficient provisions for the realisation of rent in the Act itself there is no need of taking the help of the summary procedure of the Bengal Public Demands Recovery Act, 1913. An attempt has been made in the Bill to remedy all these defects as far as practicable.

STATEMENT OF OBJECTS AND REASONS.

Whereas it has become urgently necessary to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and whereas it has become further necessary to give a healthy tone and economic rejuvenation to the actual tiller of the soil who has been hard hit by the abnormal fall in the price of the staple food crops, jute and other crops and whereas the purchasing capacity of the *raiyats* having greatly diminished, it is essential that some of the sections of the present Bengal Tenancy Act should be so amended that it can relieve the *raiyat* to a very great extent from his present economic thraldom. Though the Bill that is being introduced cannot effectively deal with all the ills that he is suffering from, yet the provisions would be something with which he can quench his thirst. With this hope the present Bengal Tenancy (Amendment) Bill is being introduced in the Bengal Legislative Assembly at its present session.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th December 1937.

Final Forecast of the Bhadoi Crops of Bengal, 1937-38.

(*Note*—On an average of the five years ending 1935-36, the area under autumn rice in Bengal has represented some 7·9 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the preliminary forecast preparatory tillage was carried under favourable condition; but the dry months of March and April delayed sowings and insufficient rainfall in June and July affected the highland crops. Since then the conditions became favourable for growth and development of the crops. Some damage to *bhadoi* paddy was, however, caused by *pamari* insects in Bakarganj and by excessive rainfall and floods in Chittagong and by cyclone in Noakhali. The season, on the whole, was fairly satisfactory.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,616,500 acres as against 6,494,100 acres last year. Of this, the area under autumn rice is estimated at 5,864,500 acres as against 5,756,600 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 83 per cent. of the normal this year as against 82 per cent last year. The autumn rice is estimated to yield an outturn of 82 per cent. of the normal for the province this year as against 81 per cent. last year.

On the basis of a normal yield of 11 1/9th maunds of clean rice per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 1,962,800 tons this year as against 1,903,200 tons (revised) last year.

M. CARBERY,
Director of Agriculture, Bengal.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

It is a well-known fact that the condition of the Bengal peasantry is not only deplorable but is going from bad to worse. The amendment of the Bengal Tenancy legislation in 1928 instead of improving their lot has worsened their condition in many respects. Due to the abnormal fall in the prices of staple food crops and the main money crop without any hope of recovery in the near future resulting in untold miseries and hardships to the real producers of wealth, it is absolutely necessary that something tangible must be done to ameliorate the condition of the different classes of tenants.

With that view, the amendments proposed will but touch the fringe of the great tenancy problem in Bengal for which the public and the press are for a considerable length of time showing their eagerness to tackle the situation as early as possible.

To remove the anomaly the maximum rent payable by the tenant has been fixed, rights of *raiyats* in the use of their lands have been extended. Provision has also been made for the remission of rent in urgent cases, reduction of interest for default, subdivision of tenancy, protecting tenants from unnecessary harassment, for abolition of transfer-fee and pre-emption rights of the landlords and for special protection of the co-tenants who pay the rent regularly in suits for arrears of rent as well as in the case of the sale of the tenancy for the arrears of the co-tenants.

It is therefore time for every right thinking man who has the interests of peasants at heart to step in and protect dying men from misery and starvation and thus help in building up the Bengali race.

STATEMENT OF OBJECTS AND REASONS.

Since the last general amendment of the Bengal Tenancy Act of 1885 made in 1928 there has been a persistent demand for further amendment of the Act to the greater benefits of the tenants both from the general public and the tenants. In our opinion the present economic depression in the country is more responsible for such demand than the ordinary conditions under which tenancies are held. To illustrate the above it may be said—

(*i*) that unless the crushing indebtedness of the *raiyats* caused by continued fall in the prices of agricultural commodities would not force the *raiyats* to sell their holdings or portions thereof, the *raiyats* would not demand unfettered right to transfer the same, because they know in the heart of their hearts that unfettered transferability of their holdings is very likely to turn them as landless labour at the instance of the money-lenders; but now that they are forced to sell their holdings they must naturally get the maximum of the present abnoramally low price of their lands, to which landlord's fee is certainly a bar, and that is why they demand the withdrawal of the fetter of landlord's transfer fee:

(*ii*) that the prevailing rate of rent which they had till recently been paying without grudge has become excessive and disproportionate to the value of their land-products owing to the heavy fall in their prices, and that is why they demand that the present rate of rent must be reduced: and

(*iii*) that no co-sharer tenant, however small his holding may be, himself being poverty-stricken can bear the additional burden of paying the rent due by his comparatively more distressed co-sharers to save the holding from sale for arrears of rent due to all the co-sharer tenants, and that is why they demand free and unrestricted sub-division of their holdings.

Besides the above, in these days of progressive democracy, all schools of political thought consider it high time to recognise absolute right of the tillers of the soil to the land, which they till with the sweat of their brow to produce food for the human race as well as other articles for increasing the nation's wealth. In order to keep with the time and also to meet the aforesaid and other reasonable demands of the tenants I have thought it expedient to further amend the tenancy Act of our province. I am conscious of the fact that within the four corners of the Act, which is based on the principle of transference of the right to land firstly from the State to the proprietors and then from the proprietors to the tenants, much cannot be done to relieve the present distress of the tenants in general. I have, however, considered it expedient to loosen every hard knot as much as may be permissible under the present constitutional structure of the Act to give all possible relief to the producers of our food from land and water.

Proceeding on that principle I have proposed to amend the Act as follows:—

(1) I have thought it advisable to reduce the landlord's transfer fee payable by *raiyats* to a fixed nominal sum payable to the landlord for the required change of his books, and, consistently with it, modification of the landlord's fee payable by tenure-holders also has been thought expedient. I have, therefore, proposed the amendment of the sections of the Act relating to the payment of landlord's fee and landlord's transfer fee by reducing both kinds of fee to the fixed sum of two rupees.

(2) The prevailing rate of rent has appeared to me to be an undue pressure, and I have thought it reasonable to reduce the rate by at least the amount by which it has been enhanced on the ground of the rise in the price of staple food crops in the course of the last 30 years. And as regards the cases where the tenants hold their tenancies under rack-rents, I have amended section 112 of the Act, so that upon the application of one hundred tenants of a locality where such rack-rent prevails, the Government shall require a Revenue Officer to settle fair and equitable rent payable by the tenants of the locality. But at the same time I have had regard to the probability of the present system of private landlordism being abolished in near future and of the rents payable by the *raiyats* becoming the main land-revenue of this province, to be utilised for the benefit of the *raiyats* themselves, and accordingly I have thought it wise to provide for the enhancement of the rent up to the limit of one-fifth of the net value of the produce of the land. I have, however, thought it right to deny the landlord, whether a private person or the Government, to get any unearned increment of rent. I have therefore considered it fit to define a fair and equitable rate of rent payable by a *raiyat* by wiping out the general increment of rent made within the last 30 years and to provide for earned increment only of rent as well as for reduction of rent on similarly fair grounds, and have also considered it right to make consistently fair provision for the reduction and increment of the rent payable by the tenure-holders. I have accordingly proposed suitable amendments of the sections of the Act relating to the rent payable by the *raiyats* and tenure-holders and to the enhancement and reduction thereof.

(3) I have also for the aforesaid reasons provided for free and unrestricted sub-division of the holdings and tenures.

(4) I have seriously considered the legal status of the *bona fide* fishermen, who produce no less an important item of food than rice for the people of this province and, in the absence of any special legislation as to their rights and privileges, who are now absolutely at the mercy of their lessors, and who as producers of an important item of food can reasonably claim protection under the law of the land. I have accordingly proposed for them a recognised right almost like that of a *raiyat*, and have inserted a few provisions as to their status and rights into the Bill.

(5) While proposing to confer additional rights and privileges to the *raiyats* I have not forgotten the cases of the tenure-holders who do not hold permanent right to the land. While giving the *raiyats* and under-*raiyats* the right of transferability and heritability I consider it logical and fair to give the same right to the non-permanent tenure-holders also. I have, therefore, proposed amendments to that effect.

(6) The transference of the occupancy-holding having been made as much free as that of the *raiyati* holding at fixed rent or rate of rent, and other rights and privileges of those two kinds of *raiyats* being the same I have considered it unnecessary to retain a separate class of *raiyats* under the denomination of "*raiyat* at fixed rate or rate of rent." I have therefore proposed for its omission from the Act.

(7) I have considered the insecurity of the tenancies of the non-occupancy-*raiyats* and under-*raiyats* also with all fairness due to them, and have proposed to remove the clauses by which they are ejectable on the ground of non-payment of rent.

(8) I have moreover made provision for the under-*raiyats* acquiring the right of occupancy by occupation for continued twelve years.

(9) I have also adopted measures to prevent the growth of a new kind of bourgeois in the name of *raiyats* by making provisions under which a *raiyat* who shall possess more than 50 standard bighas of land or who shall convert himself into a rent-receiver in respect of the major portion of his holding or who shall settle lands with an under-*raiyat* to erect a dwelling house thereon, shall cease to be a *raiyat* and shall become a tenure-holder and the tenants under him shall become *raiyats*. The principle underlying these provisions is to give the greatest benefit to the actual tillers of the soil.

(10) The rent-paying capacity of the tenants in general having considerably diminished, I consider it a great hardship to impose interest on the arrears of rent at the rate of 12½ per cent. per annum and have therefore proposed to reduce it by half; for the same reason I have proposed to reduce the rate of compensation on arrears of rent by half.

(11) It being a general complaint that in spite of the realisation of any excess over the actual rent and cess being made illegal by the present Act, such illegal excesses, *e.g.*, *abwabs*, *taharis*, etc., are still being realised by some landlords and their agents. Although there is a provision in the Act affording the tenant the right to sue the landlord and his agent for compensation for exaction of the aforesaid excesses, such right is not exercised for fear of costly litigation in civil courts. The tenants have consequently remained as much victims to the greedy landlords and their agents as before. I have, therefore, proposed criminal action against the exacting landlord or his agent, as the case may be, by inserting a new clause to that effect.

(12) Non-granting of receipts of rent to the poor tenants by many landlords and their agents is still continuing as before This is causing duplicate payments resulting in great loss to the poverty-stricken tenants. In spite of the provision for those tenants to get compensation for such action from the landlord and his agent, the tenants owing to their poverty cannot take costly legal steps for that purpose. I have therefore proposed criminal action in such cases also by inserting new clauses to that effect.

(13) Though generally the landlords do not sue their tenants for arrears of rent at the end of every instalment of three months, yet there are many instances where the landlord in order to feed his grudge against his tenant for private reasons sues the tenant for arrears of rent in quick succession with the object of oppressing him to the point of evacuation from the land. In order to protect the tenant against such cases of oppression I have proposed for enlarging the interval of two successive suits for rent from three to twelve months.

(14) I have observed that where a tenant holding land under a registered lease pays rent in kind he is put to great hardship when his rent falls in arrears and his landlord sues him for that. What happens is that even when the rent payable by a *burga raiyat* in a particular year is, say, 5 *cottahs* of paddy, the court decrees the sum of, say, Rs. 20, the amount mentioned in the lease for the purpose of registration, as the value of that year's rent, on the ground that evidence to prove that the said recital in the lease was not intended by the parties to be interpreted as the actual value of the rent is barred by section 92 of the Evidence Act. Similar hardship happens in the case of tenants paying a fixed quantity of crop as rent. In order to remove this inequity and hardship on the *raiyat* I have proposed amendment to that effect.

(15) I have also observed that where a co-sharer landlord sues his tenant for arrears of rent and makes his co-sharers, who may be large in number, defendants in the suit, the costs of making them defendants in many cases exceed the plaintiff's claim by a good many times, and the unfortunate tenant who was not responsible for such course of action on the part of his landlord is forced by a legal decree to bear the unbearable burden of the costs of the suit. I have proposed measures to render such costs non-payable by the tenant.

(16) I shall now refer to the following two matters of much public importance. One is that landlord's right of pre-emption, and the other the right of landlords other than the Government to realise rent as a public demand by a certificate under the Bengal Public Demands Recovery Act, 1913:—

(*i*) I shall firstly deal with the right of pre-emption. A large volume of opinion against it has been created among the *raiyats*. Although the landlords have in a very few cases exercised that right since its inception in 1928, yet much undue resentment has been expressed against it both through the press and on the platform. Though I hold that the exercise of that right by the landlord does not materially affect the *raiyat* but on the other hand may in certain cases be availed of to the benefit of the *raiyat* himself or of his co-sharers, yet I have thought it wise to meet the oppositionists. But I have considered it right that a co-sharer of the transferring *raiyat* should be given the right to pre-empt. Under the present law a co-sharer non-Muslim *raiyat* has not got the right of pre-emption which the Muslim *raiyat* has. Such a right of pre-emption seems to be very much reasonable, because the co-sharer tenant should in all fairness be given the option to purchase his co-sharer's right so that the holding may practically speaking remain intact without interference by strangers.

(*ii*) Secondly as to the right of private landlords to realise rent by certification I am convinced that under the cover of certification much oppression is committed upon the tenants. It is nothing but another form of distraint which has been abolished. It will be a very unpleasant thing to enumerate innumerable instances where such power has been misused or abused to the untold sufferings of the tenure-holders and *raiyats*. Repeated certification has at least in one case to our knowledge led to murder. In any case, an influential and rich private landlord's right to get rent cannot be strictly interpreted to be a public demand. The position does not logically alter even when a landlord's estate is managed by a Court of Wards. So I have, acting upon the principle of equity and justice, proposed for the repeal of the chapter in the Act, which provides for the power of such certification being given to a landlord, and for the denial of the said right to the Court of Wards also.

(17) I have also provided for some other amendments, which are minor and do not deserve mention here.

General control by the Commission.

The Commission, which represents all the interests concerned in the abatement of Smoke Nuisances, held 10 meetings in the year under review. It maintained contact with the various Smoke Departments, Fuel, Engineering and Research Institutions in Europe and America, and kept abreast of the latest progress in the scientific use of fuel towards the abatement of industrial smoke.

The density of smoke emitted from a furnace is determined by a reference to Ringelmann's Smoke Gauge, according to the table described below:—

Scale No. 1—No smoke

Scale No. 2—Light grey smoke.

Scale No. 3—Grey smoke.

Scale No. 4—Very dark grey smoke.

Scale No. 5—Black smoke.

Scale No. 6—Dense black smoke.

For the purpose of smoke nuisance inspection, only scales Nos. 4, 5 and 6 are important. The emission of dense black smoke (scale No. 6) is prohibited. Scales Nos. 5 and 4 are related to scale No. 6 as follows:—

One minute of scale No. 5 (black smoke) is taken as equal to ·55 minutes of scale No. 6 (dense black smoke) and one minute of scale No. 4 (very dark grey) is taken as equal to ·37 minutes of scale No. 6.

On this basis, the average emission of smoke from each factory chimney in 1936 was the equivalent of ·08 minutes of dense black smoke per hour. In 1906, when the Commission assumed control the daily emission of black smoke per chimney was 13·1 minutes per hour.

During the year action was taken as under:—

Offences reported for departmental action—1,471.

Offences reported by telephone for departmental action—775.

Inspection and tests of installations—3,855.

Statutory warnings—9.

Prosecutions—16.

In addition to the above preventive action, 204 steamships and launches and 169 locomotives were reported to the local marine and railway authorities for their usual departmental action, which in all cases was readily undertaken.

The maximum fine imposed for offences under the Act was Rs. 150 and the minimum Rs. 10.

Of the 16 prosecutions which were launched (Appendix II), resort to the penal law was found necessary in 9 cases because furnaces, flues and chimneys were wrongfully constructed without first submitting plans for the approval of the Commission. It may be again stated that the Commission is advisory and not repressive. Well-designed plants are necessary for smoke prevention and fuel economy and it is not only obligatory but convenient to consult the Commission whose wide experience is always at the disposal of the public.

Detecting offensive chimneys.

A watch is kept on the smoke nuisance from the Central Smoke Observatory which is equipped with a telephone so that the owner or manager of an offensive chimney may be called up and the emission of smoke of prohibited density brought to his notice. Observations of locomotives, steamers, launches and minor industrial plants are taken locally. The total number of observations made during the year was 6,496.

The observation of smoke is carried out by the two Assistant Inspectors who alternately devote half a day to this duty. A Smoke Inspector is a qualified engineer and a combustion specialist, and his principal duties are to ascertain by tests, etc., the causes of defective installations and suggest means to remedy the same. His services are therefore chiefly required at the factory where he can advise on smoke prevention and fuel economy. Every case of smoke nuisance may call for a very particular solution according to varying conditions.

European and American smoke abatement organisations emloy Smoke Observers, in addition to Smoke Inspectors. In 1926, the Commission recommended to Government that Smoke Observers should be

appointed to relieve the Inspectors, so as to allow the latter to devote full time towards the technical duties of smoke abatement. Administrative approval was obtained in 1927 to this recommendation but the Commission regrets that financial stringency is still a hindrance to this important scheme being carried into effect.

Plans for furnaces, flues and chimneys.

Smoke prevention must begin at the furnace and not at the chimney top. Properly proportioned furnaces, flues and chimneys are the basic factors for efficient smoke abatement; they increase the power of the plant and reduce the overhead and fuel costs. If a plant is properly designed there should be no trouble in complying with the requirements of the Smoke Act. During the year the Commission examined and approved 72 plans, of which 61 were made in the office of the Commission, covering nearly all types of industrial furnaces. Plans were also supplied on request to mills outside the controlled area and to other provinces. The number of plans approved by the Commission since 1916, when the Act was amended, to govern construction, re-construction, alteration or addition to plants, now totals 1,312. The success attained by the Commission through this most important measure is reflected in the low average emission of smoke, per chimney, which has been steadily maintained for the last six years (Appendix I).

Complaints.

The Commission controls approximately an area of 80 square miles and cannot with its small staff keep in touch with every case of smoke nuisance. It has again been indebted to the public for bringing cases to notices by means of complaints. During the year 78 complaints were received against 86 in the preceding year. The Commission assures the public that on receipt of a complaint prompt and careful enquiry is made. Relief is given, wherever possible, and the Commission endeavour to see that industry is not subjected to unreasonable demands.

Domestic smoke.

There is no legislation for the control of domestic smoke. The bad effect of domestic smoke in Calcutta is accentuated because kitchen fireplaces, as a rule, have no chimneys and are adjacent to residential quarters into which they discharge smoke and grit. The worst conditions obtain in the cold weather months, when the absence of wind and rain leaves the air uncleansed; this causes the smoke to remain stationary for hours. The application of electricity and gas to meet domestic requirements has an important bearing on the general comfort and health of the public. It is pleasing to record that there is an increased demand by property owners for smokeless appliances as these contribute to the welfare of the city's health.

Electricity and gas are, however, beyond the means of a very large percentage of the population who use coke on the domestic grate. Smoke is emitted during the "lighting up" period, because of the use of paper, wood chips and shavings, cow dung cakes and paraffin to start a fire. Vigorous fanning to force a draught through the bars will reduce the quantity of smoke in a few minutes; alternatively, charcoal may be used as a smokeless medium for lighting up a coke fire.

Reduction of smoke by electricity and gas.

Electricity.

Electrical appliances both for commercial and domestic use, should be encouraged as permanent remedies for atmospheric pollution.

The Calcutta Electric Supply Corporation state that "electric motors totalling 13,320 h.p have been installed within the area of this company's supply during the year 1936.

Many of these motors have been used in works which were previously driven by coal or oil, and the total number of such works which have changed over to electric drive is 23".

Gas.

The contribution towards solving the city's smoke problem by the Oriental Gas Company, Ltd., increases every year. They report a continued increase in the installation of cooking and water heating appliances for domestic purposes and have fitted up several large blocks of flats with gas appliances during the year.

The number of industrial concerns using gas for varied purposes has increased and the prospect of further development in this direction is very good.

During the year there was an increase of over 800 gas-consuming appliances which have replaced coal-burning *chulas* and furnaces. Further there is a recent demand for the use of gas coke in boilers and furnaces, etc., to displace coal.

Publicity.

No public health exhibition can be said to be a success that does not include a section giving publicity to the pollution of the air by smoke and its deleterious effects on health and property. As in past years, the Commission in collaboration with the Oriental Gas Company and the Calcutta Electric Supply Corporation had an exhibit for the 1936 "Calcutta Health Week". The section was well patronized by the public who showed a keen interest in the smoke exhibits and the appliances designed as permanent remedies for the "Smoke Evil". Leaflets on the abatement of domestic smoke were freely distributed.

Inspectorate.

On Mr. R. Grant, Chief Inspector and Secretary, proceeding on leave from the 2nd October 1936 for one year, Mr. O. J. Field was appointed to officiate in his place in addition to his own duties.

Conclusion.

The Commission records its grateful thanks to the various Smoke, Fuel and Engineering Research departments. Thanks are also due to those local owners, managers and engineers whose co-operation and valuable assistance have greatly helped the Commission, and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

O. J. FIELD,
Chief Inspector and Secretary (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Winter Rice Crop of Bengal, 1937-38.

(*Note.*—On an average of the five years ending 1935-36, the area under winter rice in Bengal has represented some 20·7 per cent. of the total area under winter rice in India.)

Character of the season.—In the first forecast issued in September last the weather was reported as having been fairly good for the crop. Seasonable showers in the latter part of September facilitated late transplantation with the result that more area was brought under cultivation. Good rainfall in the beginning of October was favourable for the final growth and flowering of transplanted winter paddy and in consequence a good outturn is expected except in the districts of Jessore, Khulna, Hooghly, Rajshahi, Malda, Bakarganj, Chittagong and Noakhali. The crop has been somewhat affected at places by insect-pests, floods and excessive rainfall.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 15,818,900 acres as compared with 15,603,300 and 15,803,600 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that three districts report a bumper crop, five districts a normal crop, ten districts a crop varying from 90 to 96 per cent. and the rest below 90 per cent. According to the above estimates the provincial outturn works out to 96 per cent. of the normal as against 100 and 106 per cent. in the corresponding and final forecasts of last year.

Accepting 96 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean rice (husked) per acre, is estimated at 6,973,200 tons this year as against 7,164,800 and 7,692,200 tons (both revised this year), respectively, in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 16th December 1937.

First Forecast of the Spring Oilseed Crops of Bengal, 1937-38.

(*Note.*—On an average of the five years ending 1935-36, the area under linseed in Bengal has represented some 3·4 per cent. and that under rape and mustard 11·9 per cent. of the total area under these crops in India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two Divisions, the area under cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 932,100 acres this year as against 875,200 and 916,700 acres respectively in the corresponding and final forecasts of last year.

Character of the season.—Weather and rainfall conditions have generally been favourable for the growth of the crops and the present condition is satisfactory.

Director of Agriculture, Bengal.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1937-38.

(*Note.*—On an average of the five years ending 1935-36, the area under *til* in Bengal has represented some 3·2 per cent. of the total area under *til* in India.)

Character of the season.—Heavy rainfall is reported to have hampered sowing and affected the early growth of the crop in some minor districts. Subsequent effects of weather have been generally favourable. Considerable damage has been done by the rainfall during the period from 30th November to 2nd December in Chittagong Hill Tracts as also in parts of Rajshahi by flood and excessive rainfall. The season has, on the whole, been fair.

Acreage.—The total area sown with the crop this year is estimated at 50,900 acres as against 52,000 acres last year.

Outturn.—According to the District Officers' estimate, the outturn of the crop for the province, as a whole, works out to 80 per cent. of the normal as against 86 per cent. last year.

Taking 7 1/20ths maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 10,500 tons this year as against 11,600 tons (revised) last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th December 1937.

Third Forecast of the Cotton Crops of Bengal, 1937-38.

[*Note.*—On an average of the five years ending 1935-36, the area under the cotton crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.]

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the second forecast in October last, the weather continued generally favourable for early crop. The prospect of late variety is not very satisfactory.

Area sown.—The total area sown with early cotton is returned at 93,483 acres and that with late at 495 acres as against 93,222 (revised) and 755 acres, respectively, in the corresponding forecast of last year. The increase in area is chiefly due to revision of estimate in Tripura State.

Outturn.—The outturn of the early crop is estimated at 30,865 bales and the late crop at 69 bales as against 28,254 (revised) and 197 bales, respectively, in the corresponding forecast of last year.

STATEMENT OF OBJECTS AND REASONS.

1. Since the amendment of the Bengal Tenancy Act in the year 1928, a violent agitation of the inexpressible grievances of the *raiyats* and others concerned is afloat; and it is found that in many cases some unnecessary privileges of the landholders are introduced and some superfluous rights are created for them at the sacrifice of the legitimate claim and interest of the *raiyats*, though the very cases of the amendment itself of the Act were due to remedying some vital grievances of the *raiyats*.

2. **Section 23.**—The section ought to be amended. It is generally used in preventing the *raiyats* from legitimate use of the land for his own convenience and benefit which justifies the amendment.

3. **Section 25.**—The omission of clause (*a*) is consequential upon the amendment of section 23.

4. The sections 26 and 26F, namely, the landlord's transfer fee and their right of pre-emption respectively newly created by the amendment of 1928 are the unprecedented and unthought of sections which have redoubled the grievances of the unfortunate *raiyats* not unnaturally enhancing the pecuniary troubles over and above the economic depression among the common mass embarrassed by heavy debts by positively lessening the value of the land to a great extent. Both the sections with a very few others are the machinery so to say of extorting money from the wretched tillers of the soil by a direct or indirect process. So the agitation among the *raiyats* is so keen and so the repeal *in toto* of both the sections is intended.

5. The alterations in sections 26C, 26E, 26-I, 26J necessarily follow owing to the total repeal of sections 26D and 26F.

6. **Section 68.**—The economic condition of the cultivators does not justify the imposition of 25 *per cent.* damages on them in case of non-payment of rent.

7. **Section 86A.**—The cases of diluvion occur for no fault of the tenants, so it is not reasonable that they should be made to pay rent for which they derive no benefit if they desire to keep hen on the land diluviated. The loss of rent to landlord entailed by diluvion is insignificant in comparison with the loss caused to the tenant. Moreover landlords' loss to some extent is generally compensated by fishery rights over the land, whereas the tenant is deprived of every benefit of it. Besides extinguishment of his right over the diluviated lands is not equitable.

8. **Section 88.**—Disagreement among co-tenants which is not uncommon to pay rent collectively causes great difficulties leading not unfrequently to litigations even sometimes to sale of the holding for arrears of rent. To avoid such difficulties the new amendment for division of tenancy which is not also prejudicial to the interest of the landlord is indispensable.

9. **Sections 158A, 158AA and 158AAA.**—The certificate procedure adopted by the private landlords empowered by those sections while they have ample power under sections 148, 148A, for rent suits, gives much hardships to the *raiyats*. To remove that long-standing grievance of the *raiyats* the repeal of this procedure is intended.

10. **Section 181.**—It seems quite unbecoming and unjustifiable for the *ghatwali* and other service tenure-holders who have been enjoying the land from time immemorial creating thereby a clear right of a *raiyat* to withdraw now from him that right. Hence the amendment.

11. **Section 182.**—The homestead of a *raiyat* or an under-*raiyat* was restricted to an unjustifiable limit. To remove that grievance it is intended that the *raiyat* holding land will have the same advantages in the municipal areas.

Amendment of section 178.

58. (*a*) In section 178 (*3*) of the said Act the following shall be added, namely :—

"(*f*) shall take away or limit the right of a *raiyat* to get his share of compensation in the L. A. proceedings."

Amendment of section 188.

59. From clause (*iii*) of the proviso to sub-section (*1*) of section 188 of the said Act, the words "clause (*b*) of section 18" and the words "or section 66" shall be omitted.

Amendment of section 195.

60. From section 195 of the said Act the clause (*b*) shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Tenancy Act of 1885 was last amended on a large scale in 1928. Since then two important events have taken place which have necessitated a further general amendment: (1) the world economic depression, and (2) introduction of further Reforms on the basis of much larger representation of the tenants in the Legislatures.

The Provincial Economic Inquiry shows that the indebtedness of Bengalee *raiyats* amounts to nearly 200 crores of rupees. This crushing burden has constantly forced the *raiyat* to sell his holding, the mainstay of his livelihood, and as a result *mahajans* and other non-agriculturists have become the proprietor of the land. This makes the tiller of the soil a landless labourer whose poverty and stakeless life are a weakness and danger to the society.

The landlord gets 20 per cent. of the value of the land when transfer takes place and has also the right of pre-emption. The *raiyat* wants to get the maximum out of the sale, but a considerable portion has to be given to the landlord. This has been thought very unfair and abolition of landlords' fees has, therefore, been proposed in the present amendment. So also the right of pre-emption.

The heavy fall in price of produce has hard hit the peasant, but his outgoings have remained the same. So stopping of enhancement of rent on grounds of rise in price of staple crops since last 30 years, and reduction of rent in years of scarcity have been proposed.

The occupancy-*raiyat* has been proposed to be given the same rights as permanent tenure-holders, and the primary rights of a human being to build pucca house, dig wells, tanks, etc., have been given to him.

The co-sharer tenant is made to suffer for the defaults of his other sharers and the present amendment proposes to limit his liabilities to his own share, and that is why free and unrestricted subdivision of their holdings has been proposed.

The fishermen who produce a chief item of food of the Province has got no legal rights in water where they have to work for catching fish. Certain rights like those of a *raiyat* have been proposed to be given to the fishermen.

The damages for non-payment of rents have been reduced by one-fourth and the interest on arrear rents to 3 per cent. only, considering the low interest rate in the money market and the low paying capacity of the *raiyat*.

Though "Abwabs" (excess charges) have been declared illegal, they are still being realised freely from the helpless *raiyats*. So criminal action has been proposed to do away with this illegal drain on *raiyat's* purse as also of fishermen.

Criminal action has also been proposed in the case of non-granting of receipts by landlords to *raiyats*.

No two rent suits can be instituted by the landlord in course of 12 months for arrears of *kists*.

Certificate procedure of realising rent has been proposed to be abolished.

Certain burdens on the *raiyat* as cost of litigation forced on him for cumbrous laws have been proposed to be removed.

The right of pre-emption has been proposed to be given first to a co-sharer tenant, as prevails amongst the Muslims in Bengal, and Hindus in Bihar, too.

These and some other minor amendments have been proposed.

"Every zemindar must set apart at least 5 *bighas* of pasture lands in every village, before he will be entitled to get any rent from the tenants of said village."

STATEMENT OF OBJECTS AND REASONS.

The object of the proposed amendment is to make the tenants real masters of their lands, to rescue them from the whims of the zemindars and to make their rights more secure and stable. To remove unnecessary and highhanded restrictions as imposed by the present Act on the free use of the tenants' lands, is also one of the reasons, for the introduction of this Bill. The unwholesome provisions of the present Act are considered as one of the reasons, which has brought ahead the present economic distress of the tenantry of Bengal and this Bill seeks to ameliorate their conditions to a large extent. The landlord's transfer-fee, the zemindars' right of pre-emption are matters, which are inconsistent with the tenants' unqualified proprietorship of the lands and therefore those provisions must go. The rent of the lands have gone so high that it is well-nigh impossible for the tenants to enjoy the lands without running into debts; it is therefore suggested that further enhancement should cease and the rent should be reduced. The other amendments also are directed towards the fulfilment of the one common object, viz., to improve in all possible ways the hard lot of the rack-rented tenants of Bengal.

37. Clause (*g*) of sub-section (*1*) of section 178 of the said Act shall be modified and substituted by the following :—

"Shall take away or limit the right of any tenant to transfer his holding or any share or portion thereof in accordance with this Act."

STATEMENT OF OBJECTS AND REASONS.

Fixity of tenure, stability of rent, freedom in the matter of transfer and security from eviction are necessary incidents of immovable property. Property has become precious, and proprietors have become prosperous wherever these incidents have existed, it is precisely the absence of these attributes of real property that has undermined tenancy rights in rural Bengal, and society, of which peasantry is the pivot, cannot look up from its degrading misery, unless thorough overhauling changes are introduced into the existing Tenancy Law, with a view to securing greater stability and immunity for the rights of tenantry.

I

The landlord's right to have a fee when a tenant's tenure or holding is transferred creates an unnecessary vested interest, and this source of unearned income tends to make him greedy for quick transfers of a tenure or holding from one tenant to another. On the other hand, property loses a fair value, since the interest of a permanent third party stands as a load upon it between the vendor and the purchaser. Experience shows that the dread of landlord's fees scares many an intending bidder both in private sale and in auction. Landed property in villages has thus become more an inevitable burden to carry than an asset to enjoy use and utilise. The economic misery of Bengal in these days owes a great deal to this unnatural and pernicious system.

Hence proposed amendments of relevant provisions in Chapters III, IVA and V of the Act.

The landlord's right of pre-emption is only another name for a right of vetoing every transfer by a tenant and it gives him an improper choice of tenants. The existing law, by disturbing a tenant's option to transfer in favour of a person or party of his choice for any consideration, pecuniary or otherwise, cripples the independence of the vendor, and by impeding a person's or party's right to have and to acquire property according to his or its choice and convenience thwarts the just claims of a vendee.

This right of the landlord to frustrate transfers cannot but be detrimental to the freedom and interest of the tenantry as a class, and he always can, if he likes, use this right as a handle for undue advantages.

Hence the proposed amendments of the relevant sections in Chapter V of the Act.

II

Right to get enhancement of rent on the ground of rise in price of staple food crops is unjust and hard. In the first place such a rise is not an absolute blessing for the tenant who has got to pay more for his own purchases, and the conditions of the market are determined by so many perceived and unperceived factors that a rise in price is more of the nature of an accident which brings similar advantages and disadvantages for all classes; and unless a tenant's happiness is to be grudged, there is no justice in taxing his supposed increase in earning. In the second place, since the landlord is not subjected to any additional payment on this score, he ought not to get any extra advantage at the cost of the tenant.

Fluvial action is similarly a nature's benefit—also an accident—and if a tenant gets the benefit of that a landlord does not stand to lose and there is no justice in the latter's getting the enhancement, as allowed by present law.

Experience shows that stability of rent suffers considerably from the existing arrangements of law. Although a tenant has been given the corresponding right of getting a reduction of rent on the ground of fall in prices, experience shows that a tenant can seldom come to court for such relief, and a landlord would never agree to such reduction at his own instance or outside court.

Hence, in order to ensure stability, amendments are proposed of relevant portions of Chapter V which deal with enhancement and reduction of rent.

III.

Without disturbing the statutory distinctions among occupancy-*raiyats*, non-occupancy-*raiyats* and under-*raiyats* changes have been proposed, as eminently called for, in Chapters VI, VII, VIII, IX of the Act with a view to approximating their normal incidents to a more or less uniform standard. Artificial distinctions are detrimental to a healthy growth of prosperous peasantry, and these distinctions have lost much of their original meaning, since it is found that in practical working *raiyats* of all classes function almost similarly. Their problems are so common and inseparable from one another that a uniform system of law should protect them at least in the matter of transfer and ejectment. Gradual standardisation of tenure and fixity of rent are signs of growing peasantry, and law should be accelerating. It is high time that the veil of insecurity and uncertainty in the matter of status and rights should be lifted from the face of by far a large portion of agricultural population.

IV.

Right of appeal is a very valuable right of a subject. It is short-sightedness to deny appeals in suits of small claims ; for the smaller a claim of the landlord the greater is the chance that the tenant is poor. The poorer a tenant the stronger the need for facilities of law. It is patent that Munsifs will be less circumspect in cases which cannot go to higher courts. The results of execution cases are more frightful. A wrong decree in a rent suit ordinarily means monetary loss for the tenant, but a wrong decision in an execution case, which is not open to appeal, kills the property, possibly the only small property of a poor tenant, possibly his homestead.

Hence the proposal for abolishing section 153.

V.

Chapter XIIIA is proposed to be abolished, since it is evidently responsible for a state of tyranny in society. It is significant that the original framers of the Act did not contemplate giving such undue and unnecessary facilities to landlords. It was in 1907 that this Chapter was introduced for benefiting a select class of big zamindars. Economic conditions of tenants were far better than they are now. Ordinary civil courts are good enough for the vast majority of landlords, and there is no reason why a picked up class of them—those who are undoubtedly much better off than the rests should get the benefit of a special system of expeditious realisation.

Comparatively less solvent landlords do not ordinarily come to court till there is risk of limitation, whereas the less needy landlords—those vested with certificate powers—are fired with an ambition for making up-to-date collection of their dues. Experience shows that their zeal, amounting to greed, does not yield even to extreme misery of starving tenants.

Certificate power has thus been an engine of oppression in the hands of solvent landlords and the less fortunate landlords suffer considerably due to this premium of advantage given to their fortunate brethren. Their collections are bound to be low, since a tenant who strains his utmost to ward off the distress levied by landlords exercising summary power, lest the kitchen utensils would be seized, cannot possibly have any residuary grain of resource left for these other landlords.

It is also well known that tenants do not get their ordinary reliefs before a certificate court—which functions practically as an execution court—reliefs which otherwise they could have had in an ordinary civil court.

Chapter XIIIA offends against the principles of justice and equity.

VI.

The notice as provided for in order 21, rule 66 of the Civil Procedure Code, 1908, should be introduced into section 163 of the Act. Landlords frequently undervalue the tenants' property, and the order of combined attachment and proclamation brings such a dread with it that the tenant has not time to think of any objection on the ground of inadequacy. Courts also ordinarily do not like to stop the sale before deciding the matter of valuation Landlords venture to go to the bid at their risk, but a tenant cannot allow the sale to take place and then fight out his objections. He is invariably forced to compromise his right, and get an adjournment after waiving his legitimate objections. This should be remedied.

VII.

The amendment of section 178 of the Act is necessary for maintaining consistency with other provisions of the Act

The Bengal Tenancy (Amendment) Bill, 1937.

(Clauses 3—5.)

(*b*) for clause (*e*), the following shall be substituted, namely :—

"(*e*) In the case of transfer by bequest of a holding or a portion or share thereof, to one *per cent.* of the value thereof as determined by the Court for the purposes of stamp duty for the grant of probate or letters of administration or to a sum equal to the annual rent of the holding or of the portion or share transferred whichever is less."

Amendment of section 26E.

3. In section 26E of the said Act for the words "twenty *per cent.*" the words "one *per cent.*" shall be substituted, for the words "five times" the words "a sum equal to" shall be substituted and for the word "greater" the word "less" shall be substituted.

Substitution of new section for section 26F.

4. For section 26F of the said Act, the following section shall be substituted, namely :—

"26F. Landlord's transfer fee as provided under sections 26D and 26E shall under no circumstances be less than eight annas."

Amendment of section 88.

5. Section 88 of the said Act shall be amended as follows, namely :—

Sub-clause (*i*) in the fourth paragraph, *i.e.*, the words "If the division results in the creation of unreasonably small holdings" shall be deleted.

In sub-clause (*ii*) of the same paragraph the words and figures "Rs. 2-8" and "Rs. 4" shall be substituted, respectively, by the words and figures "Re. 1" and "Rs. 2".

The last paragraph of the said section, namely, the portion—

"Every order of the Court directing division of the tenancy or distribution of rent shall also direct payment by the applicant to the landlord of a mutation fee being equal to twice the amount of rent made payable by the tenant in case of tenures, and four times such rent in case of holdings"

shall be deleted.

STATEMENT OF OBJECTS AND REASONS.

Section 26 of the Bengal Tenancy (Amendment) Act, 1928, has reduced the value of lands of Bengal to a considerable extent and has helped a great deal to foster estrangement of good feelings between the landlords and tenants. Immediate amendment of this section is therefore a dire necessity. Section 88 of the Bengal Tenancy (Amendment) Act, 1928, provides sufficient encouragement to the dishonest persons for non-payment of their rents and discourage regular payment of rents of joint landed properties by the honest tenants, and it is therefore a source of great disadvantage to the landlords. The present economic position of Bengal does not justify the joint property and its joint liability system and it is sure and certain that comparative smaller holdings will facilitate regular realization of fees from the poor tenants who alone shall be responsible for his rent. The landlords need not therefore be anxious for the creation of unreasonably small holdings. It is true that the Bengal Tenancy (Amendment) Act, 1928, requires thorough overhauling and it is known to all that the Hon'ble Revenue Minister is preparing a Government Bill to this effect but as this will require time and as the tenants are in urgent and immediate need of relief, I place this Bill before the House with a hope that it will be considered and passed in this very session without referring it to any select committee and thus provide slight relief to the wretched tenants of Bengal. The proposed amendment is not of course a dainty dish of *pollaw korma* relief measure to the hungry tenants of Bengal but is a sort of *Sagu Barley* dietary relief measure for the long suffering tenants of the province. It is like a straw to the drowning Bengali tenants in the floods of starvation, misery and indebtedness.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to remedy the evil effects of some of the provisions introduced in the Bengal Tenancy (Amendment) Act, 1928, and do away with some of the iniquitous differences amongst different kinds of tenants at present in existence under the Bengal Tenancy Act and thereby rehabilitate the economic life of the actual tiller of the soil. The abnormal fall in the price of the staple food crops, jute and other crops has hit the *raiyat* hard and the purchasing capacity of the *raiyat* has been so reduced that it is essential that some of the sections of the present Bengal Tenancy Act should be amended to relieve the *raiyat* to some extent from his present economic thraldom.

The Bill that is being introduced cannot effectively deal with all the ills from which the *raiyat* is suffering, but the provisions would to some extent relieve him from his present distress. It is superfluous to advance reasons for desiring to improve the condition of the agriculturist for it is agreed on all hands that the economic life of the nation depends upon the economic prosperity of the *raiyat*. It is he who maintains the entire superstructure of our civilisation and culture and hence on grounds of equity and political justice as well as of the economic self-interest of the community as a whole, it is essential that the condition and status of the *raiyat* must be improved.

STATEMENT OF OBJECTS AND REASONS.

Since the last general amendment of the Bengal Tenancy Act of 1885 made in 1928 there has been a persistent demand for further amendment of the Act to the greater benefits of the tenants both from the general public and the tenants. In our opinion the present economic depression in the country is more responsible for such demand than the ordinary conditions under which tenancies are held. To illustrate the above it may be said—

(*i*) that unless the crushing indebtedness of the *raiyats* caused by continued fall in the prices of agricultural commodities would not force the *raiyats* to sell their holdings or portions thereof, the *raiyats* would not demand unfettered right to transfer the same, because they know in the heart of their hearts that unfettered transferability of their holdings is very likely to turn them as landless labour at the instance of the money-lenders; but now that they are forced to sell their holdings they must naturally get the maximum of the present abnoramally low price of their lands, to which landlord's fee is certainly a bar, and that is why they demand the withdrawal of the fetter of landlord's transfer fee:

(*ii*) that the prevailing rate of rent which they had till recently been paying without grudge has become excessive and disproportionate to the value of their land-products owing to the heavy fall in their prices, and that is why they demand that the present rate of rent must be reduced: and

(*iii*) that no co-sharer tenant, however small his holding may be, himself being poverty-stricken can bear the additional burden of paying the rent due by his comparatively more distressed co-sharers to save the holding from sale for arrears of rent due to all the co-sharer tenants, and that is why they demand free and unrestricted sub-division of their holdings.

Besides the above, in these days of progressive democracy, all schools of political thought consider it high time to recognise absolute right of the tillers of the soil to the land, which they till with the sweat of their brow to produce food for the human race as well as other articles for increasing the nation's wealth. In order to keep with the time and also to meet the aforesaid and other reasonable demands of the tenants I have thought it expedient to further amend the tenancy Act of our province. I am conscious of the fact that within the four corners of the Act, which is based on the principle of transference of the right to land firstly from the State to the proprietors and then from the proprietors to the tenants, much cannot be done to relieve the present distress of the tenants in general. I have, however, considered it expedient to loosen every hard knot as much as may be permissible under the present constitutional structure of the Act to give all possible relief to the producers of our food from land and water.

Proceeding on that principle I have proposed to amend the Act as follows:—

(1) I have thought it advisable to reduce the landlord's transfer fee payable by *raiyats* to a fixed nominal sum payable to the landlord for the required change of his books, and, consistently with it, modification of the landlord's fee payable by tenure-holders also has been thought expedient. I have, therefore, proposed the amendment of the sections of the Act relating to the payment of landlord's fee and landlord's transfer fee by reducing both kinds of fee to the fixed sum of two rupees.

(2) The prevailing rate of rent has appeared to me to be an undue pressure, and I have thought it reasonable to reduce the rate by at least the amount by which it has been enhanced on the ground of the rise in the price of staple food crops in the course of the last 30 years. And as regards the cases where the tenants hold their tenancies under rack-rents, I have amended section 112 of the Act, so that upon the application of one hundred tenants of a locality where such rack-rent prevails, the Government shall require a Revenue Officer to settle fair and equitable rent payable by the tenants of the locality. But at the same time I have had regard to the probability of the present system of private landlordism being abolished in near future and of the rents payable by the *raiyats* becoming the main land-revenue of this province, to be utilised for the benefit of the *raiyats* themselves, and accordingly I have thought it wise to provide for the enhancement of the rent up to the limit of one-fifth of the net value of the produce of the land. I have, however, thought it right to deny the landlord, whether a private person or the Government, to get any unearned increment of rent. I have therefore considered it fit to define a fair and equitable rate of rent payable by a *raiyat* by wiping out the general increment of rent made within the last 30 years and to provide for earned increment only of rent as well as for reduction of rent on similarly fair grounds, and have also considered it right to make consistently fair provision for the reduction and increment of the rent payable by the tenure-holders. I have accordingly proposed suitable amendments of the sections of the Act relating to the rent payable by the *raiyats* and tenure-holders and to the enhancement and reduction thereof.

(3) I have also for the aforesaid reasons provided for free and unrestricted sub-division of the holdings and tenures.

(4) I have seriously considered the legal status of the *bona fide* fishermen, who produce no less an important item of food than rice for the people of this province and, in the absence of any special legislation as to their rights and privileges, who are now absolutely at the mercy of their lessors, and who as producers of an important item of food can reasonably claim protection under the law of the land. I have accordingly proposed for them a recognised right almost like that of a *raiyat*, and have inserted a few provisions as to their status and rights into the Bill.

(5) While proposing to confer additional rights and privileges to the *raiyats* I have not forgotten the cases of the tenure-holders who do not hold permanent right to the land. While giving the *raiyats* and under-*raiyats* the right of transferability and heritability I consider it logical and fair to give the same right to the non-permanent tenure-holders also. I have, therefore, proposed amendments to that effect.

(6) The transference of the occupancy-holding having been made as much free as that of the *raiyati* holding at fixed rent or rate of rent, and other rights and privileges of those two kinds of *raiyats* being the same I have considered it unnecessary to retain a separate class of *raiyats* under the denomination of "*raiyat* at fixed rate or rate of rent." I have therefore proposed for its omission from the Act.

(7) I have considered the insecurity of the tenancies of the non-occupancy-*raiyats* and under-*raiyats* also with all fairness due to them, and have proposed to remove the clauses by which they are ejectable on the ground of non-payment of rent.

(8) I have moreover made provision for the under-*raiyats* acquiring the right of occupancy by occupation for continued twelve years.

(9) I have also adopted measures to prevent the growth of a new kind of bourgeois in the name of *raiyats* by making provisions under which a *raiyat* who shall possess more than 50 standard bighas of land or who shall convert himself into a rent-receiver in respect of the major portion of his holding or who shall settle lands with an under-*raiyat* to erect a dwelling house thereon, shall cease to be a *raiyat* and shall become a tenure-holder and the tenants under him shall become *raiyats*. The principle underlying these provisions is to give the greatest benefit to the actual tillers of the soil.

(10) The rent-paying capacity of the tenants in general having considerably diminished, I consider it a great hardship to impose interest on the arrears of rent at the rate of 12½ per cent. per annum and have therefore proposed to reduce it by half; for the same reason I have proposed to reduce the rate of compensation on arrears of rent by half.

(11) It being a general complaint that in spite of the realisation of any excess over the actual rent and cess being made illegal by the present Act, such illegal excesses, *e.g.*, *abwabs*, *taharis*, etc., are still being realised by some landlords and their agents. Although there is a provision in the Act affording the tenant the right to sue the landlord and his agent for compensation for exaction of the aforesaid excesses, such right is not exercised for fear of costly litigation in civil courts. The tenants have consequently remained as much victims to the greedy landlords and their agents as before. I have, therefore, proposed criminal action against the exacting landlord or his agent, as the case may be, by inserting a new clause to that effect.

(12) Non-granting of receipts of rent to the poor tenants by many landlords and their agents is still continuing as before. This is causing duplicate payments resulting in great loss to the poverty-stricken tenants. In spite of the provision for those tenants to get compensation for such action from the landlord and his agent, the tenants owing to their poverty cannot take costly legal steps for that purpose. I have therefore proposed criminal action in such cases also by inserting new clauses to that effect.

(13) Though generally the landlords do not sue their tenants for arrears of rent at the end of every instalment of three months, yet there are many instances where the landlord in order to feed his grudge against his tenant for private reasons sues the tenant for arrears of rent in quick succession with the object of oppressing him to the point of evacuation from the land. In order to protect the tenant against such cases of oppression I have proposed for enlarging the interval of two successive suits for rent from three to twelve months.

(14) I have observed that where a tenant holding land under a registered lease pays rent in kind he is put to great hardship when his rent falls in arrears and his landlord sues him for that. What happens is that even when the rent payable by a *burga raiyat* in a particular year is, say, 5 *cottahs* of paddy, the court decrees the sum of, say, Rs. 20, the amount mentioned in the lease for the purpose of registration, as the value of that year's rent, on the ground that evidence to prove that the said recital in the lease was not intended by the parties to be interpreted as the actual value of the rent is barred by section 92 of the Evidence Act. Similar hardship happens in the case of tenants paying a fixed quantity of crop as rent. In order to remove this inequity and hardship on the *raiyat* I have proposed amendment to that effect.

(15) I have also observed that where a co-sharer landlord sues his tenant for arrears of rent and makes his co-sharers, who may be large in number, defendants in the suit, the costs of making them defendants in many cases exceed the plaintiff's claim by a good many times, and the unfortunate tenant who was not responsible for such course of action on the part of his landlord is forced by a legal decree to bear the unbearable burden of the costs of the suit. I have proposed measures to render such costs non-payable by the tenant.

(16) I shall now refer to the following two matters of much public importance. One is that landlord's right of pre-emption, and the other the right of landlords other than the Government to realise rent as a public demand by a certificate under the Bengal Public Demands Recovery Act, 1913:—

(*i*) I shall firstly deal with the right of pre-emption. A large volume of opinion against it has been created among the *raiyats*. Although the landlords have in a very few cases exercised that right since its inception in 1928, yet much undue resentment has been expressed against it both through the press and on the platform. Though I hold that the exercise of that right by the landlord does not materially affect the *raiyat* but on the other hand may in certain cases be availed of to the benefit of the *raiyat* himself or of his co-sharers, yet I have thought it wise to meet the oppositionists. But I have considered it right that a co-sharer of the transferring *raiyat* should be given the right to pre-empt. Under the present law a co-sharer non-Muslim *raiyat* has not got the right of pre-emption which the Muslim *raiyat* has. Such a right of pre-emption seems to be very much reasonable, because the co-sharer tenant should in all fairness be given the option to purchase his co-sharer's right so that the holding may practically speaking remain intact without interference by strangers.

(*ii*) Secondly as to the right of private landlords to realise rent by certification I am convinced that under the cover of certification much oppression is committed upon the tenants. It is nothing but another form of distraint which has been abolished. It will be a very unpleasant thing to enumerate innumerable instances where such power has been misused or abused to the untold sufferings of the tenure-holders and *raiyats*. Repeated certification has at least in one case to our knowledge led to murder. In any case, an influential and rich private landlord's right to get rent cannot be strictly interpreted to be a public demand. The position does not logically alter even when a landlord's estate is managed by a Court of Wards. So I have, acting upon the principle of equity and justice, proposed for the repeal of the chapter in the Act, which provides for the power of such certification being given to a landlord, and for the denial of the said right to the Court of Wards also.

(17) I have also provided for some other amendments, which are minor and do not deserve mention here.

STATEMENT OF OBJECTS AND REASONS.

Since the last general amendment of the Bengal Tenancy Act of 1885 made in 1928 there has been a persistent demand for further amendment of the Act to the greater benefits of the tenants both from the general public and the tenants. In our opinion the present economic depression in the country is more responsible for such demand than the ordinary conditions under which tenancies are held. To illustrate the above it may be said—

(i) that unless the crushing indebtedness of the *raiyats* caused by continued fall in the prices of agricultural commodities would not force the *raiyats* to sell their holdings or portions thereof, the *raiyats* would not demand unfettered right to transfer the same, because they know in the heart of their hearts that unfettered transferability of their holdings is very likely to turn them as landless labour at the instance of the money-lenders; but now that they are forced to sell their holdings they must naturally get the maximum of the present abnormally low price of their lands, to which landlord's fee is certainly a bar, and that is why they demand the withdrawal of the fetter of landlord's transfer fee;

(ii) that the prevailing rate of rent which they had till recently been paying without grudge has become excessive and disproportionate to the value of their land-products owing to the heavy fall in their prices, and that is why they demand that the present rate of rent must be reduced; and

(iii) that no co-sharer tenant, however small his holding may be, himself being poverty-striken, can bear the additional burden of paying the rent due by his comparatively more distressed co-sharers to save the holding from sale for arrears of rent due to all the co-sharer tenants, and that is why they demand free and unrestricted subdivision of their holdings.

Besides the above, in these days of progressive democracy, all schools of political thought consider it high time to recognise absolute right of the tillers of the soil to the land, which they till with the sweat of their brow to produce food for the human race as well as other articles for increasing the nation's wealth. In order to keep with the time and also to meet the aforesaid and other reasonable demands of the tenants I have thought it expedient to further amend the tenancy Act of our province. I am conscious of the fact that within the four corners of the Act, which is based on the principle of transference of the right to land firstly from the State to the proprietors and then from the proprietors to the tenants, much cannot be done to relieve the present distress of the tenants in general. I have, however, considered it expedient to loosen every hard knot as much as may be permissible under the present constitutional structure of the Act to give all possible relief to the producers of our food from land and water.

Proceeding on that principle I have proposed to amend the Act as follows:—

(1) I have thought it advisable to reduce the landlord's transfer fee payable by *raiyats* to a fixed nominal sum payable to the landlord for the required change of his books, and, consistently with it, modification of the landlord's fee payable by tenure-holders also has been thought expedient. I have, therefore, proposed the amendment of the sections of the Act relating to the payment of landlord's fee and landlord's transfer fee by reducing both kinds of fee to the fixed sum of two rupees.

(2) The prevailing rate of rent has appeared to me to be an undue pressure, and I have thought it reasonable to reduce the rate by at least the amount by which it has been enhanced on the ground of the rise in the price of staple food crops in the course of the last 30 years. And as regards the cases where the tenants hold their tenancies under rack-rents, I have amended section 112 of the Act, so that upon the application of one hundred tenants of a locality where such rack-rent prevails, the Government shall require a Revenue Officer to settle fair and equitable rent payable by the tenants of the locality. But at the same time I have had regard to the probability of the present system of private landlordism being abolished in near future and of the rents payable by the *raiyats* becoming the main land-revenue of this province, to be utilised for the benefit of the *raiyats* themselves, and accordingly I have thought it wise to provide for the enhancement of the rent up to the limit of one-fifth of the net value of the produce of the land. I have, however, thought it right to deny the landlord, whether a private person or the Government, to get any unearned increment of rent. I have therefore considered it fit to define a fair and equitable rate of rent payable by a *raiyat* by wiping out the general increment of rent made within the last 30 years and to provide for earned increment only of rent as well as for reduction of rent on similarly fair grounds, and have also considered it right to make consistently fair provision for the reduction and increment of the rent payable by the tenure-holders. I have accordingly proposed suitable amendments of the sections of the Act relating to the rent payable by the *raiyats* and tenure-holders and to the enhancement and reduction thereof.

(3) I have also for the aforesaid reasons provided for free and unrestricted subdivision of the holdings and tenures.

(4) I have seriously considered the legal status of the *bona fide* fishermen, who produce no less an important item of food than rice for the people of this province and, in the absence of any special legislation as to their rights and privileges, who are now absolutely at the mercy of their lessors, and who as producers of an important item of food can reasonably claim protection under the law of the land. I have accordingly proposed for them a recognised right almost like that of a *raiyat*, and have inserted a few provisions as to their status and rights into the Bill.

(5) While proposing to confer additional rights and privileges to the *raiyats* I have not forgotten the cases of the tenure-holders who do not hold permanent right to the land. While giving the *raiyats* and under-*raiyats* the right of transferability and heritability I consider it logical and fair to give the same right to the non-permanent tenure-holders also. I have, therefore, proposed amendments to that effect.

(6) The transference of the occupancy-holding having been made as much free as that of the *raiyati* holding at fixed rent or rate of rent, and other rights and privileges of those two kinds of *raiyats* being the same I have considered it unnecessary to retain a separate class of *raiyats* under the denomination of "*raiyat* at fixed rate or rate of rent." I have therefore proposed for its omission from the Act.

(7) I have considered the insecurity of the tenancies of the non-occupancy-*raiyat*; and under-*raiyats* also with all fairness due to them, and have proposed to remove the clauses by which they are ejectable on the ground of non-payment of rent.

(8) I have moreover made provision for the under-*raiyats* acquiring the right of occupancy by occupation for continued twelve years.

(9) I have also adopted measures to prevent the growth of a new kind of bourgeois in the name of *raiyats* by making provisions under which a *raiyat* who shall possess more than 50 standard bighas of land or who shall convert himself into a rent-receiver in respect of the major portion of his holding or who shall settle lands with an under-*raiyat* to erect a dwelling house thereon, shall cease to be a *raiyat* and shall become a tenure-holder and the tenants under him shall become *raiyats*. The principle underlying these provisions is to give the greatest benefit to the actual tillers of the soil.

(10) The rent-paying capacity of the tenants in general having considerably diminished, I consider it a great hardship to impose interest on the arrears of rent at the rate of 12½ per cent. per annum and have therefore proposed to reduce it by half; for the same reason I have proposed to reduce the rate of compensation on arrears of rent by half.

(11) It being a general complaint that in spite of the realisation of any excess over the actual rent and cess being made illegal by the present Act, such illegal excesses, *e.g.*, *abwabs*, *taharis*, etc., are still being realised by some landlords and their agents. Although there is a provision in the Act affording the tenant the right to sue the landlord and his agent for compensation for exaction of the aforesaid excesses, such right is not exercised for fear of costly litigation in civil courts. The tenants have consequently remained as much victims to the greedy landlords and their agents as before. I have, therefore, proposed criminal action against the exacting landlord or his agent, as the case may be, by inserting a new clause to that effect

(12) Non-granting of receipts of rent to the poor tenants by many landlords and their agents is still continuing as before. This is causing duplicate payments resulting in great loss to the poverty-stricken tenants. In spite of the provision for those tenants to get compensation for such action from the landlord and his agent, the tenants owing to their poverty cannot take costly legal steps for that purpose. I have therefore proposed criminal action in such cases also by inserting new clauses to that effect.

(13) Though generally the landlords do not sue their tenants for arrears of rent at the end of every instalment of three months, yet there are many instances where the landlord in order to feed his grudge against his tenant for private reasons sues the tenant for arrears of rent in quick succession with the object of oppressing him to the point of evacuation from the land. In order to protect the tenant against such cases of oppression I have proposed for enlarging the interval of two successive suits for rent from three to twelve months.

(14) I have observed that where a tenant holding land under a registered lease pays rent in kind he is put to great hardship when his rent falls in arrears and his landlord sues him for that. What happens is that even when the rent payable by a *burga raiyat* in a particular year is, say, 5 *cottahs* of paddy, the court decrees the sum of, say, Rs. 20, the amount mentioned in the lease for the purpose of registration, as the value of that year's rent, on the ground that evidence to prove that the said recital in the lease was not intended by the parties to be interpreted as the actual value of the rent is barred by section 92 of the Evidence Act. Similar hardship happens in the case of tenants paying a fixed quantity of crop as rent. In order to remove this inequity and hardship on the *raiyat* I have proposed amendment to that effect.

(15) I have also observed that where a co-sharer landlord sues his tenant for arrears of rent and makes his co-sharers, who may be large in number, defendants in the suit, the cost of making them defendants in many cases exceed the plaintiff's claim by a good many times, and the unfortunate tenant who was not responsible for such course of action on the part of his landlord is forced by a legal decree to bear the unbearable burden of the cost of the suit. I have proposed measures to render such costs non-payable by the tenant.

(16) I shall now refer to the following two matters of much public importance. One is that landlord's right of pre-emption, and the other the right of landlords other than the Government to realise rent as a public demand by a certificate under the Bengal Public Demands Recovery Act, 1913:—

(*i*) I shall firstly deal with the right of pre-emption. A large volume of opinion against it has been created among the *raiyats*. Although the landlords have in a very few cases exercised that right since its inception in 1928, yet much undue resentment has been expressed against it both through the press and on the platform. Though I hold that the exercise of that right by the landlord does not materially affect the *raiyat* but on the other hand may in certain cases be availed of to the benefit of the *raiyat* himself or of his co-sharers, yet I have thought it wise to meet the oppositionists. But I have considered it right that a co-sharer of the transferring *raiyat* should be given the right to pre-empt. Under the present law a co-sharer non-Muslim *raiyat* has not got the right of pre-emption which the Muslim *raiyat* has. Such a right of pre-emption seems to be very much reasonable, because the co-sharer tenant should in all fairness be given the option to purchase his co-sharer's right so that the holding may practically speaking remain intact without interference by strangers.

(*ii*) Secondly as to the right of private landlords to realise rent by certification I am convinced that under the cover of certification much oppression is committed upon the tenants. It is nothing but another form of distraint which has been abolished. It will be a very unpleasant thing to enumerate innumerable instances where such power has been misused or abused to the untold sufferings of the tenure-holders and *raiyats*. Repeated certification has at least in one case to our knowledge led to murder. In any case, an influential and rich private landlord's right to get rent cannot be strictly interpreted to be a public demand. The position does not logically alter even when a landlord's estate is managed by a Court of Wards. So I have, acting upon the principle of equity and justice, proposed for the repeal of the chapter in the Act, which provides for the power of such certification being given to a landlord, and for the denial of the said right to the Court of Wards also.

(17) I have also provided for some other amendments, which are minor and do not deserve mention here.

STATEMENT OF OBJECTS AND REASONS.

Certain sections of the Bengal Tenancy Act, 1885, have brought some unusual hardship upon the cultivating tenants and it is desirable that without bringing any drastic change on the existing system of land tenure of the Province some burden of the tenants be lessened by making some amendments which seem to be very urgent.

The special features are the abolition of landlords' transfer-fee and introduction of compulsory mutation on transfer, abolition of landlords' right of pre-emption, conferring the right of transfer to under-*raiyats* and repeal of certificate procedure for the realisation of rents.

"No deposit shall be necessary when the case for setting aside the sale is filed by a third party" and the word "allowed", in the proviso, be substituted by the word "granted".

STATEMENT OF OBJECTS AND REASONS.

The insecurity of non-agricultural holdings is causing extreme hardship and it should be removed. Payment of landlord's fee and the right of pre-emption are the two plague spots in the tenants' rights and is a standing menace to the poor tenants and it should be given a go-by in the best interest of the country.

Rent is excessive in many places and needs reduction; hence the provision of enhancement of the rent has outgrown its utility and the agriculturists are harassed by unscrupulous landlords by the institution of quarterly and half-yearly suits though the rent is generally paid annually. The landlord should get interest for the detention of their money and should not be entitled to any flat rate of damages. In spite of the fact that the payments of *abwabs* have been made illegal, it is still persisting, hence it need be made penal and the conditions attached to the division of tenancy and tenures are working very hard upon the tenants and are responsible for many rent suits and executions. The persons who are under no obligations of payment of rent are compelled to make a deposit at the time of filing "sale set aside cases" which is inequitous, hence it should go and the interpretation of the word "allowed" is responsible for many conflicting judicial decisions so to avoid ambiguity the word "granted" should be substituted for the word "allowed".

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 5th October, 1937:—

L. A. BILL No. 40 OF 1937.

A Bill further to amend the Prevention of Cruelty to Animals Act, 1890.

WHEREAS it is expedient further to amend the Prevention of Cruelty to Animals Act, 1890, in the manner hereinafter appearing; It is hereby enacted as follows:— XI of 1890.

Short title.

1. This Act may be called the Prevention of Cruelty to Animals (Amendment) Act, 193 .

Amendment of section 4, Act XI of 1890.

2. For section 4 of the Prevention of Cruelty to Animals Act, 1890, the following section shall be substituted, namely:— XI of 1890.

Penalty for practising Phuka or Doom dev.

"4. (*1*) If any person performs or permits any person to perform upon any cow or she-buffalo the operation called "Phuka" or "Doom dev" he shall be punished with fine which may extend to five hundred rupees or with rigorous imprisonment which may extend to three months or with both.

Presumption as to permission to practise Phuka or Doom dev by a person in the employment of a person owning a large dairy.

(*2*) If the operation of "Phuka" or "Doom dev" is performed on a cow or she-buffalo by a person in the employment of a person owning a large dairy, it shall be presumed until the contrary is proved that the owner of such dairy has permitted such operation of "Phuka" or "Doom dev" by his employee on a cow or a she-buffalo."

STATEMENT OF OBJECTS AND REASONS.

The practice of "Phuka" or "Doom dev", which is practised generally on she-buffaloes, is extremely cruel. It is growing extensively in the last few years. The sole cause for this appears to be the desire for exploitation of the Commercial dairies which are coming into existence to meet the demand of milk in big cities which are periodically expanding. The old section 4 of the Act is limited to cows only. Moreover it aims only against persons who practise "Phuk" but not against their masters who permit such practices. The sentence provided in the old section 4 is not deterrent. The amendment of the Act that is suggested aims at removing all these defects. The Bill provides also for a presumption against owners of large dairies in respect of permission to servants to practise *phuka*.

The object of the Bill is to put a stop to this cruel practice of *phuka* on cows and she-buffaloes which is getting alarming in its growth.
